An analysis of the abstract of reports made during the past year shows that there has been a net increase in the number of banks of 124, and that the assets in the aggregate, amounting on November 27, 1908, to \$9,197,075,816, increased on September 1, 1909, to \$9,573,954,377, or a net increase during the year of \$376,878,561. With the exception of the call of February 5, 1909, when the amount of loans and discounts was less by \$9,434,774 than on November 27, 1908, there was a steady increase in the volume, rising from \$4,879,278,503 to \$5,158,434,592 on September 1, 1909, a net increase during the year of \$279,156,089. The banks' investments in United States bonds increased from \$703,010,310 to \$731,028,110, or an increase of \$28,017,800. Bonds and other securities, exclusive of United States bonds, stated at \$855,309,593 in November, 1908, increased to \$916,380,301 on September 1 last, or an increase of

\$61,070,708. Amounts due from banks, including clearing-house exchanges, show greater fluctuations than any other items of assets. In November, 1908, the amount due from banks, etc., was \$1,581,949,779, dropped to \$1,555,737,987 in February, and to \$1,536,146,481 in April. From the last-named date to June 23, there was an increase of \$10,279,136, and a further increase by September 1 is shown of \$10,541,206. These changes resulted in a net decrease on September 1, 1909, as compared with November 27, 1908, of \$24,982,956. Bills of other national banks, amounting to \$37,904,774 in November, reached the maximum on April 28, 1909, namely, \$45,413,071, but decreased to \$40,204,902 on September 1, 1909, showing a net increase during the year of \$2,300,128.

Lawful money in bank; that is, specie, and legal tenders, amounted in November, 1908, to \$844,759,520, and on September 1, 1909, to \$854,071,857, a net increase of \$9,312,337. Gold, including certificates, increased in the sum of \$7,232,738, the amount held on September 1, 1909, being \$519,440,109. The holdings of silver increased only \$2,636,383, or from \$144,321,405 to \$146,957,788. At date of last report the banks held \$187,673,960 in legal tenders against \$188,230,114 in November, 1908, or less than at that time by \$556,784.

By the organization of new associations and the increase in capital of those existing on November 27, 1908, the paid in capital stock of all national banks steadily increased during the year from \$921,019,383 in November, 1908, to \$944,642,067 on September 1, 1909, an increase of \$23,622,684. There is shown to have been a regular and material increase in surplus fund from \$568,159,293 to \$597,981,876, an increase for the year of \$29,822,583. By reason of a reduction in other undivided profits of \$7,510,627, the net increase of surplus and other undivided profits is shown to have been \$22,311,956.

As a result of the withdrawal of government deposits from United States depositories, the amount of deposits on November 27, 1908, being \$111,802,031, and on September 1, 1909, \$35,226,912, bonds on deposit as security for the government deposits have been withdrawn and redeposited to a large extent as security for circulation. The outstanding note issues of the banks in November, 1908, aggregated \$599,319,369, and on September 1, 1909, \$658,040,356, an increase for the year of \$58,720,987. This increase was in part due to the organization of new banks, but mainly to the increased issues of old banks on bonds transferred from deposit to circulation account. Including deposits of United States disbursing officers with United States deposits, government funds held by the banks were reduced from \$124,428,585 in November, 1908, to \$48,704,883 on September 1, 1909, a net reduction of \$75,723,702. Amounts due to banks, inclusive of bills payable and rediscounts, increased during the year \$70,688,623, or from \$1,998,434,254 to \$2,069,122,877.

With the exception of the February 5, 1909, returns, there is shown to have been a steady and substantial increase in the amount of individual deposits, the net increase during the year being \$289,608,440, or from \$4,720,284,640 to \$5,009,893,080, the last-named amount representing the largest volume of individual deposits ever held by national banking associations.

In connection with the foregoing, it is of interest to note the fluctuations in the volume of loans and discounts, lawful money, individual deposits, etc., of central reserve city banks, other reserve city banks, and country banks. On November 27, 1908, the loans and discounts

of the New York City banks reached \$956,037,960, but declined on September 1, 1909, to \$925,910,750, a reduction during the year of \$30,127,210. The lawful money held by these banks decreased from \$310,824,159 to \$301,932,158, a decline of \$8,892,001. The deposits of the New York City banks on September 1, 1909, amounting to \$779,886,679, were less by \$41,196,036 than in November, 1908, when they amounted to \$821,082,715. The Chicago banks increased their loans from \$229,969,096 to \$262,788,523, an increase of \$32,819,427. In St. Louis there was an increase from \$111,653,851 to \$118,505,297, or an increase of \$6,851,446. The net increase in the loans and discounts of all central reserve city banks was \$9,543,663, or from \$1,297,660,907 to \$1,307,204,570. The other reserve cities increased their volume of loans to the extent of \$119,353,732, and the country banks \$150,258,693, resulting, as heretofore stated, in a net increase in the loans of all national banks of the country of \$279,156,089. Lawful money held by the Chicago banks increased to the extent of \$5,269,029, and the St. Louis banks held \$1,883,448 more on September 1, 1909, than on November 27, 1908, the result of which is a net decrease in the holdings of lawful money by central reserve city banks of \$1,739,624. Other reserve city banks increased their holdings of lawful money from \$215,824,406 to \$225,357,352, an increase of \$9,532,946. There was but a slight change in the holdings of lawful money by the country banks, the net increase being only \$1,538,916, or from \$218,197,607 to \$219,736,523. Individual deposits in Chicago and St. Louis banks increased to the extent of \$18,796,795 and \$1,850,747, respectively; but the reduction in the deposits in the New York City banks resulted in a net reduction of all central reserve city banks of \$20,548,494. Other reserve city banks increased their deposits to the extent of \$118,150,842, or from \$1,099,957,191 to \$1,218,108,033, and the increase in the deposits of country banks was \$192,006,092, rising from \$2,561,067,910 in November, 1908, to \$2,753,074,002 on September 1, 1909. Reductions in loans and discounts and lawful money in the New York City banks was attended by a reduction of \$40,858,832 in the aggregate amount of their assets. The Chicago and St. Louis banks increased their assets to the extent of \$27,261,702 and \$4,096,770, respectively, or a net reduction in all central reserve city banks of \$9,500,360. Other reserve city banks increased their assets to the extent of \$181,023,635, or from \$2,473,297,960 to \$2,654,321,603. The increase in the assets of the country banks was \$205,355,288, or from \$4,229,140,438 in November, 1908, to \$4,434,495,726 on September 1, 1909.

#### RESERVE HELD BY NATIONAL BANKS.

The law requires every bank located in the three central reserve cities, New York, Chicago, and St. Louis, to maintain a reserve in bank of 25 per cent; the same rate is required for other reserve city banks, but one-half of the amount may be deposited to their credit with correspondents in central reserve cities. Country banks are required to maintain a 15 per cent reserve, two-fifths of which must be in bank and three-fifths may be with correspondents. In the periodical abstracts of reports of condition of national banks a separate statement is incorporated with respect to the amount of deposits on which reserve is required, together with the amount required and held, the latter showing the various items constituting the whole, to which is appended a column showing the total amount of cash on

hand, due from reserve agents, and the redemption fund. The amount due from reserve agents is materially in excess of the legal reserve with such agents, as it is held that the excessive amount deposited over and above the legal limitation can not be regarded as legal reserve. The percentages of legal and available reserve at date of each report during the year for each class of banks are shown in the accompanying table:

#### CLASSIFICATION OF LOANS AND DISCOUNTS.

In the periodical reports made by national banks, loans and discounts are divided into the following classes: On demand, paper with one or more individual or firm names; on demand, secured by stocks, bonds, and other personal securities; on time, paper with two or more individual or firm names; on time, single-name paper (one person or firm) without other security; on time, secured by stocks, bonds, and other personal securities or on mortgages or other real-estate security.

Of the \$5,128,882,351 loans and discounts of national banks on September 1, 1909, one-fourth, or \$1,398,879,624, consisted of demand paper, of which \$957,349,934 was secured by stocks, bonds, etc. Paper of this character in all central reserve cities aggregated \$910,654,225, or approximately 70 per cent of all demand paper. Loans made by the New York City banks aggregated \$925,653,623, of which \$393,139,348 were demand loans, including \$385,430,495 secured by stocks, bonds, etc. The demand loans of the New York City banks represented 42 per cent of their totals, leaving 58 per cent as the amount of time paper.

That there is no material change in the relative proportion of each class of loans under ordinary conditions is evident from an inspection of the accompanying comparative statement taken from the reports to this office as of August 22, 1907, September 23, 1908, and September 1, 1909.

For the purpose of comparison the following table is submitted showing the amount and classification of loans of all national banks on approximate dates during the past ten years:

Date.	Number of banks.	On demand, paper with one or more individual or firm names.	On demand, secured by stocks, bonds, and other personal securities. Loans and discounts, United States bonds, and lawful money represent approximately 70 per cent of the aggregate resources of national banks, and a like proportion of liabilities is represented by capital, surplus and profits, and individual deposits. The relation of these items has changed but slightly during the past ten years, as will be observed by reference to the accompanying table:

## RANGE AND AVERAGE MONEY RATES.

In connection with the foregoing statistics and general information in relation to loans made by national banks, the accompanying tables, obtained through the courtesy of the William B. Dana Company, publishers of the New York Commercial and Financial Chronicle, relating to the range and average rates for money in the New York market during the year ended October 31, 1909, are of interest. It will be noted that the range and average rates were normal in each month up to October, when call loans on the stock exchange ranged from  $2\frac{3}{4}$  to 6, making the average for the month 4 per cent. Rates for time loans and commercial paper were slightly above normal in September and October.

## STATE, ETC., BONDS OWNED BY NATIONAL BANKS.

Paragraph 7 of section 5136 of the Revised Statutes, relating in part to the powers of national banks, provides that the board of directors of an association, or its duly authorized officers or agents,

shall exercise, subject to law, all such incidental powers as shall be necessary to carry on the business of banking; by discounting and negotiating promissory notes, drafts, bills of exchange, and other evidences of debt; by receiving deposits; buying and selling exchange, coin, and bullion; by loaning money on personal security; and by issuing circulating notes. The authority to invest in bonds and like securities is held to be empowered under the clause "by discounting and negotiating promissory notes \* \* \* and other evidences of debt." That the right to make such investment is impliedly conferred is evident from the legislation contained in the act of May 30, 1908, wherein provision is made for the acceptance by the Treasurer of the United States, under certain conditions, of state, county, municipal, or district bonds as security for circulation, and the acceptance of such securities, commercial paper, etc., for the same purpose by national currency associations.

On September 1, 1909, national banks, holdings of bonds, and other similar securities, other than United States bonds, were as follows:

State, county, and municipal bonds.....	\$155,811,290
Railroad bonds.....	342,525,242
Other public service corporation bonds.....	151,999,513
All other bonds.....	170,650,569
Stocks (presumably taken for debt).....	34,347,814
Warrants, claims, judgments, etc.....	22,408,161
Various securities with the Treasury as security for public deposits...	17,991,758
Foreign government bonds.....	13,115,621
Other foreign bonds and securities.....	7,530,350

Over one-third of the foreign bonds are owned by national banks located in the city of New York.

Assuming that the character of the bonds owned by national banks is in accordance with the requirements of May 30, 1908, the amount owned is more than sufficient as security for the aggregate amount of emergency currency authorized by the act in question, namely, \$500,000,000.

It will be noted by reference to the table in the appendix containing the details relative to investments of this character that the country banks (those not located in reserve cities) own 10 per cent of the state, etc., bonds, 19 per cent of railroad bonds, 10 per cent of other public service corporation bonds, 10 per cent of all other bonds, including foreign securities, and nearly 4 per cent of stocks, warrants, judgments, etc.

#### CLEARING-HOUSE TRANSACTIONS.

Through the courtesy of Manager William Sherer, of the New York clearing house, the office has been placed in possession of statistics in relation to the transactions of the clearing houses of the United States for the year ended September 30, 1909, together with separate returns relating to the operations of the New York clearing house.

There are 123 clearing-house associations in the United States, the aggregate exchanges of which during the year in question were \$158,559,487,500, an increase of \$32,320,793,102 over 1908. Since the prior report clearing-house associations have been established at Trenton, N. J., Austin, Tex., and North Yakima, Wash.

The New York clearing house was established in 1854 with a membership of 50, the capital of the banks being \$47,044,900 and their clearings for that year \$5,750,455,987. In September, 1909, the membership was 51, with capital of \$127,350,000. During the history of the association the volume of clearings reached the maximum in 1906, when they amounted to \$103,754,100,091. In 1907 the clearings dropped in round amount to \$95,000,000,000 and in 1908 to \$73,000,000,000, but rose to \$99,257,662,411 in 1909. On these vast transactions in 1909 balances paid in money amounted to \$4,194,484,028, or 4.22 per cent. The aggregate clearings of this association from 1854 to 1909 are shown to have been \$2,029,505,795,760, the balances paid in money being \$93,889,243,199, or 4.62 per cent.

In the settlement of balances from 1893 to 1898, inclusive, the percentage of payments in gold ranged from 0.01 per cent in 1896 to 51 per cent in 1898. From 1899 to 1907, inclusive, the proportion of gold was a fraction in excess of 99 per cent. In 1908 the percentage dropped to 82.35 per cent, but rose to 87.97 per cent in 1909.

#### CAPITAL, SURPLUS, AND LOANS.

Section 5200 of the Revised Statutes, relating to the total liabilities to any association of any person, company, corporation, etc., was amended June 22, 1906, to increase the limit of the liability from 10 per cent of paid-in capital stock to 10 per cent of the capital and surplus, the total, however, not to exceed in any event 30 per cent of the capital stock. In the abstract of reports of condition of national banks on June 16, 1906, the capital of national banks was stated at \$826,129,785; surplus, \$448,858,492; other profits, \$216,304,876, the surplus representing an amount equal to 54 per cent of the capital, and the combined surplus and other profits 80 per cent.

On September 1, 1909, the capital had been increased to \$944,642,067. The surplus was \$597,981,876, equaling 63 per cent of the capital. While other undivided profits had been reduced to the extent of \$12,548,438, the combined surplus and other profits equaled 85 per cent of the capital stock. In other words, the capital increased 14 per cent, the surplus 33 per cent, but the surplus and other profits only 20 per cent, due to a reduction in undivided profits of approximately 5 per cent.

The average capital of the 6,053 reporting banks in June, 1906, was \$136,500, making the average maximum loan to one individual, etc., \$13,650. While the average capital in September, 1909, had declined to \$135,400, the average capital and surplus amounted to \$221,100, based on which the average loan would be \$22,110. Upon that basis it is apparent that in this respect the loaning power of the national banks has been increased as a result of the amendment of 1906 to the extent of 62 per cent, although with surplus twice as great as the capital of the banks the authorized increase is 200 per cent.

From reports of condition received from national banks in January, 1906, it was shown that 56 per cent of the associations had made loans in excess of the limitation provided by section 5200 of the Revised Statutes, namely, 10 per cent of the capital stock. In

January, 1907, the percentage had fallen to 28.40, and steadily decreased from that date to 13.17 per cent in November, 1908. At date of September, 1909, call the proportion of banks violating the provisions of the section in question was 15.02 per cent.

The attention of every bank, the report from which shows that loans have been made in excess of the limitation, has been directed to the double penalty for violations of the restriction; that is, the individual liability of the directors, who knowingly permit an excessive loan to be made, for any loss that may be sustained thereon, and, second, forfeiture of the bank's charter.

#### CAPITAL STOCK OF NATIONAL BANKS.

On October 31, 1908, the authorized capital stock of national banking associations was \$930,365,275. Since that date there has been an increase of \$22,830,000 by banks organizing and \$26,421,000 as the net result of changes in capital stock of banks existing prior thereto. The loss of capital by liquidations was \$14,225,850 and by insolvency \$768,500. These increases and losses resulted in a net increase during the year of \$34,256,650, the authorized capital at the close of the current year standing at \$964,621,925.

In the appendix appears a table giving by States and geographical divisions the number and paid-in capital of national banks by classes, as shown by their reports of condition on September 1, from which it will be seen that 1,815, or 26.01 per cent, of the banks are operating under the minimum amount of capital stock, viz, \$25,000, the total capital being \$45,151,532. The relative proportion of capital of these banks to the total capital is 4.78 per cent. There are 384 banks with capital in excess of \$25,000 but less than \$50,000, their aggregate capital being \$12,615,370. The percentages of number and capital of banks of this class are 5.51 and 1.33, respectively. Banks with capital of \$50,000 but less than \$100,000 number 2,217, or 31.77 per cent, and the class with capital of \$100,000 but less than \$250,000 numbers 1,909, or 27.36 per cent. These two classes represent 59.13 per cent in number of banks and 37.62 per cent of the capital. In the class with capital of \$250,000 but less than \$1,000,000 are 492 banks, or 7.05 per cent, with capital of \$193,716,920, or one-fifth of the total. The capital of the 149 banks with individual capital of \$1,000,000 but less than \$5,000,000 is \$221,080,700, or 23.40 per cent. Only 2.14 per cent of the banks are in this class. Banks with capital of \$5,000,000 and over are 11 in number, with aggregate capital of \$112,000,000, representing 11.86 per cent of the total capital of all the banks. The foregoing information is summarized in the following table:

## UNITED STATES BONDS, ETC.

The interest-bearing bonded debt of the United States on October 31, 1909, was \$913,370,490, of which \$679,545,740 was deposited with the Treasurer of the United States in trust as security for national-bank circulation, and \$35,451,300 to secure government deposits. September 1 reports of condition of national banks evidenced the ownership by the banks of United States bonds to the additional amount of \$23,145,640, making their total investments in securities of this character \$738,142,680, or approximately 80 per cent of the interest-bearing bonded debt.

In the following table the bonded debt is shown by issues, together with the amount and character of securities on deposit to secure circulation and public deposits:

The monthly statements relating to capital, bonds on deposit to secure circulation, and circulation secured by bonds and lawful money during the year ended October 31, 1909, are summarized in the accompanying table. It will be noted that there was a monthly increase in capital, bonds, and circulation secured by bonds, and a decrease in the amount of circulation covered by deposits of lawful money. It also appears that the average monthly price of 2 per cent consols declined during the report year from 103.752 in November, 1908, to 101.052 in October, 1909. The table in question follows:

## NATIONAL-BANK CIRCULATION.

Section 16, act of June 3, 1864, required a deposit of United States registered bonds to an amount not less than \$30,000, nor less than one-third of the paid-in capital stock of an association, on which circulation was issuable not to exceed 90 per cent of the market price, but not more than 90 per cent of the par value of the bonds, and not in excess of the paid-in capital. The aggregate limit was fixed at \$300,000,000. In the following year (Mar. 3, 1865) the act was amended limiting the issue of circulation as follows: To banks with capital of \$500,000 or less, 90 per cent of the capital; over \$500,000 to \$1,000,000, 80 per cent; over \$1,000,000 to \$3,000,000, 75 per cent; and over \$3,000,000, 60 per cent. It was further provided that of the aggregate amount authorized to be issued, one-half should be apportioned to associations in cities and territories, according to population, and one-half by the Secretary of the Treasury among the associations located in States, etc., having due regard to the banking capital, business, etc., of such States.

The act of July 12, 1870, authorized the issue of additional circulation to the amount of \$54,000,000, but provided that no association organized thereafter should issue circulation in excess of \$500,000. This act also authorized the organization of banks to issue circulation redeemable in gold, but limited the amount to be issued by each bank to 80 per cent of the par value of the bonds deposited.

On June 20, 1874, the act was passed establishing the national-bank redemption agency and which provided for the retiring of circulation and withdrawing of bonds, changed in part the provisions of the original law with respect to the bond-deposit requirement in that banks with capital in excess of \$150,000 were permitted to reduce their bond deposit to \$50,000, thus determining the minimum bond requirement by banks with capital in excess of \$150,000. Six months later (on Jan. 14, 1875) the limit on the aggregate amount of national-bank circulation was repealed; that is, every bank was permitted to issue circulation secured by bonds to the extent of 90 per cent of the paid-in capital stock.

Prior to February 14, 1880, it became apparent that there was no demand for gold-currency banks, only 10 of which had been organized, and on that date their conversion into currency banks was authorized. Within a short time thereafter, or prior thereto, all banks of that character were either closed or converted into currency banks.

The bond-deposit requirement was again amended on July 12, 1882, by which banks with capital of \$150,000 or less were compelled to deposit as security for circulation bonds to the amount of one-fourth of their capital only. Increase of circulation within the period of six months from date of reduction was prohibited by this act, which also limited the amount of lawful money that might be deposited to retire circulation to \$3,000,000 in any one calendar month.

The circulation franchise was given an added value by the act of March 14, 1900, which authorized the issue of circulation to the par value of the bonds deposited, reduced the tax on circulation secured by 2 per cent consols to one-fourth of 1 per cent semiannually, and repealed the provision of the act of 1882 relative to the nonincrease

of circulation within six months from date of decrease. The act of 1882 was further amended on March 4, 1907, to increase the monthly limitation of the amount of lawful money that might be deposited to retire circulation from \$3,000,000 to \$9,000,000.

The original act authorized the issue of national-bank circulation notes in the denominations of \$1, \$2, \$3, \$5, \$10, \$20, \$50, \$100, \$500, and \$1,000, but provided that no more than one-sixth part of the notes issued to an association should be of less denomination than \$5 and that after specie payments should be resumed no notes were to be furnished of less denominations than \$5. Notes of each denomination indicated, with the exception of threes, have been issued, but the total amount of ones was only \$23,169,677 and of twos \$15,495,038. The act of March 14, 1900, limited the amount of notes of denomination of \$5 to one-third of the aggregate issues of each bank, although as a matter of fact the issues of \$5 notes have never equaled a third of the total national-bank circulation outstanding and on October 31, 1909, amounted to only 20 per cent of the total.

The currency act of May 30, 1908, made no material change in the law with respect to the issue of circulation secured by United States bonds, although in addition to other denominations the Comptroller was authorized to prepare plates of the denominations of \$10,000, and it was required that the legend on the notes relating to the securities for circulation should be changed to read "secured by United States bonds or other securities."

In ordering plates for the printing of circulation the Comptroller is governed by the wishes of the banks, but since 1884-85 no plates have been engraved for the printing of notes of a higher denomination than \$100.

In conformity with law of 1908 and from May 30 of that year to October 31, 1909, national-bank plates to the number of 9,506 were prepared, and circulation therefrom printed, in addition to the requirements for current issues, to the extent of 50 per cent of the aggregate capital of the banks. The amount of circulation printed in excess of the current demand is held separately in reserve as contemplated by law.

During the existence of the national-banking system to October 31, 1909, circulation was issued to the amount of \$4,582,302,215, of which \$3,878,482,225 has been redeemed, leaving outstanding, exclusive of gold notes and nonpresented fractions, \$703,819,990. The amount issued during the year was \$413,152,510 and the stock of incomplete currency on hand at the close of the year was \$666,042,390.

Changes in the amount of each denomination of notes outstanding on October 31, 1907, 1908, and 1909, as compared with March 14, 1900, are shown in the following table:

<sup>a</sup> Gold notes not included.

On July 9, 1891, the amount of outstanding circulation reported by the banks reached the lowest point in the history of the system with respect to the paid-in capital stock, namely, 18.4 per cent, and at that time was but 7.3 per cent of the metallic and paper currency of the country. In the reports for September 1, 1909, outstanding circulation is shown to have reached the maximum; that is, 69.6 per cent since December 31, 1881, when it stood at 69.8 per cent of the capital. On June 30, 1909, money in the United States amounted to \$3,406,300,000, of which the June 23 bank reports show that 18.8 per cent consisted of national-bank circulation.

Changes that have occurred in the amount of outstanding circulation as reported by the banks of the various classes at date of the statements made during the last report year are shown in the following table:

Circulating notes to the enormous amount of \$489,923,468 were received for redemption at the national-bank redemption agency during the past year, of which \$115,898,700, being in condition fit for circulation, were forwarded to the issuing banks and \$374,024,768 delivered to this office for destruction. The receipts for redemption during the current year were \$107,563,304 in excess of the redemptions during the year 1908. The expenses incident to the redemption of national-bank circulation during the fiscal year ended June 30, 1909, were \$396,743.15, or \$0.79762 per \$1,000.

Receipts of currency for redemption by months are shown in the following table:

PROFIT ON NATIONAL-BANK CIRCULATION.

By reason of the depreciation in the market price of government bonds during the past year the computed profit on the issue of national-bank circulation has increased to a slight extent. The average net price of 2 per cent consols in November, 1908, was 103.752, showing a profit on circulation on that basis of 1.084 per cent. In October, 1909, the market price has fallen to 101.052, when the profit on circulation increased to 1.334. Panama Canal bonds declined from 102.328 in November, 1908, to 100.595 in October, 1909, the rate of profit at the higher quotation being 1.236 per cent and at the lower 1.384. The market price of the 4 per cent loan of 1925 declined during the year from 120.840 to 117.320, and the profit on circulation secured by these bonds increased from 0.768 to 1.211 per cent.

In estimating the profit on the issue of national-bank circulation, there are deducted from the receipts, consisting of the interest on bonds and interest on circulation at 6 per cent, the taxes, expenses, and sinking fund, to ascertain the net receipts. The difference between the net receipts and interest on the cost of bonds at 6 per cent is the measure of profit. As an illustration, \$100,000 consols of 1930 cost \$101,052 in October, 1909. The interest on the bonds and 6 per cent on \$100,000 circulation give the gross receipts as \$8,000. Deducting from the gross receipts taxes of \$500, expenses \$62.50, and sinking fund of \$26.50, gives the total deduction \$589. The difference between the receipts and deductions—that is, taxes, etc.—leaves \$7,411 as the net receipts. Interest on the cost of bonds at 6 per cent produces \$6,063.02. Deducting the interest on the cost of bonds from the net receipts shows the net profit on the issue of \$100,000 circulation as \$1,347.98, or 1.334 per cent.

EARNINGS AND DIVIDENDS OF NATIONAL BANKS.

Abstracts of reports of earnings and dividends of national banks for the six months ended January 1 and July 1, 1909, are published in the appendix of this report. Combining the returns for the two periods in question, it is shown that the average capital was \$919,143,825 and the surplus was \$585,407,483.46. The gross earnings of the banks during the year were \$348,674,355.11, from which losses and premiums were charged off to the amount of \$40,453,705.87, being 11.6 per cent of the gross earnings, and \$177,034,899.72 expenses and taxes, equaling 50.54 per cent. The resulting net earnings are shown to have been \$131,185,749.52, from which dividends were paid

amounting to \$92,993,449.76. The ratio of net earnings to capital and surplus is 8.72; dividends to capital and surplus, 6.18; and dividends to capital 10.12.

Records relating to the amount of earnings and dividends annually during the forty years ended July 1, 1909, show that the average net earnings have been \$69,877,835 and dividends \$52,885,467, or 8.89 per cent on the capital. The aggregate net earnings for this period were \$2,795,113,397, and dividends paid \$2,115,418,691, an amount equaling approximately three and one-third times that of the average capital stock.

#### EXPENSES OF NATIONAL BANKS.

Excluding interest on government deposits provided by the act of May 30, 1908, and corporation taxes authorized by the tariff act of 1909, national banks have paid to the Government in taxes on capital and deposits to June 30, 1883, on capital under the war-revenue act of 1898, and on circulation to June 30, 1909, the sum of \$183,662,698.98. The total expenses of the office of the Comptroller of the Currency from 1863 to June 30, 1909, for which appropriations were made, were \$12,516,385.36. It is estimated that contingent expenses not paid by the Comptroller, but from the general appropriation for contingent expenses of the department, including an estimated amount properly chargeable to the cost of operation of the bureau, equal the amount specifically appropriated, which would give the estimated approximate cost of operation during the existence of the system of \$25,000,000. In addition to taxes paid on capital, deposits, and circulation, the banks have paid \$6,363,192.69, the expenses of redeeming their notes; \$1,171,530 for plates from which circulating notes are printed; and, from 1883 to 1909 inclusive, \$6,459,755.99 in fees for examinations. The expenses of the banks for the last fiscal year were as follows: Tax on circulation, \$3,190,543.04; cost of redemption of notes, \$396,743.15; assessment for plates, \$42,275; examiners' fees, \$510,928.07, making a total of \$4,140,489.26.

The expenses of the office of the Comptroller of the Currency for the last fiscal year, excluding salaries reimbursed by national banks, were \$1,074,106.63, or \$547,035.52 in excess of the expenses of the fiscal year ended June 30, 1908. The increase in salaries was only \$2,127.34, while the increase in the cost of dies, plates, etc., was \$544,908.18. This large increase was mainly due to the legislation of May 30, 1908, relating to the engraving of bank plates and the printing therefrom of the extraordinary amount of circulating notes to meet a possible emergency.

#### ORGANIZATION OF NATIONAL BANKS.

Section 5133 of the Revised Statutes, formerly section 5 of the act of June 3, 1864, provides for the organization of national-banking associations by any number of natural persons not less than 5. The law confers authority upon the Comptroller of the Currency to approve the corporate title of an association and also to withhold his certificate authorizing an association to begin business when, as the result of special examination or otherwise, it is ascertained that the association has been organized for purposes other than those con-

templated by the act. It is further provided that no banks shall be organized with capital less than \$100,000 unless sanctioned by the Secretary of the Treasury. To avoid formation of associations for ulterior purposes or by those lacking the qualifications necessary to successful conduct of the banking business, or in a place the population and business of which are insufficient to warrant the establishment of a national bank, the Comptroller, upon receipt of an application to organize, causes a special investigation to be made, the results of which determine the favorable or unfavorable action. Since the beginning of the current calendar year, out of approximately 370 applications filed for authority to organize national banks, over 50 were rejected, mainly for the reasons hereinbefore stated.

The expansion of the national banking system along normal, safe, and conservative lines is unquestionably desirable, but the organization of a bank is not warranted in a community where there is no reason for its existence; that is, where sufficient business would not naturally come to warrant success, or where the board of directors will not be composed of men of business ability equal to the best to be found in the community, or where the organization is attempted by promoters who, by public and private means, create a false impression that a bank is needed and that success is assured by merely obtaining subscriptions to the capital stock.

From the date of the establishment of the national-banking system in 1863 to October 31, 1909, charters were granted to 9,572 national-banking associations, of which 2,063 have been placed in voluntary liquidation and 484 failed. The number of banks in operation at the close of the year was 7,025. Included in the 9,572 associations chartered are 1,503 banks, with original capital of \$320,755,928, which were conversions of state banks.

Since March 14, 1900, the date of the act authorizing the organization of banks with capital of \$25,000, charters have been granted to 4,308 associations, with capital of \$261,083,300, a number greater by 691 than the number of banks in existence on the date of the passage of the act in question. The number of banks organized during this period includes 2,768, with capital of \$72,105,500, which were organized under the act of March 14, 1900, and 1,540, with capital of \$188,977,800, organized under the act of 1864 with individual capital of \$50,000 or over. By a further subdivision of these banks it is shown that 2,384, with capital of \$130,960,500, were banks of primary organization; 1,340, with capital of \$88,587,000, organizations to succeed state and private banks, and 584, with capital of \$41,535,800, were conversions of state banks.

In the current report year, charters were granted to 309 associations with authorized capital stock of \$22,830,000. The average number of banks organized monthly from March 14, 1900, to October 31, 1907, was approximately 40; the average in 1908, 27; and in 1909, 25 and a fraction.

As an indication of the character and distribution by States and geographical divisions, of national banks organized since the passage of the act in 1900, the following table is submitted:

## EXTENSION OF CORPORATE EXISTENCE OF NATIONAL BANKS.

The act of 1864 fixes the corporate life of a national banking association at twenty years. Under date of July 12, 1882, the act was passed authorizing extensions for an additional period of twenty years, and second extensions were authorized by the act of April 12, 1902. From 1882 to October 31, 1909, first extension of charters were granted to 2,795 banks and under the act of 1902 to 969 banks. During the past year 130 charters were extended for the first time and 1 for the second. During 1910 the charters of 190 banks may be extended for the first time and 24 for the second. For the information of banks interested there is given in the appendix of this report a list of all associations the charters of which will expire during the year ending October 31, 1910.

## SPECIAL REPORT OF CONDITION OF BANKS IN THE UNITED STATES.

Through the courtesy and assistance of the National Monetary Commission the Comptroller is enabled to present for the first time in the history of banking in this country uniform statistics relative to the condition of banks of all classes on the same date.

Individual reports as of April 28, 1909, for the use of the commission in their investigation of the monetary situation were obtained by the Comptroller through the cooperation of state officials from practically every bank in the United States operating under state charters and from a larger percentage of private banks and bankers than heretofore.

Compilation of these special reports has been made under the direction of Prof. A. Piatt Andrew, now Director of the Mint, expert adviser to the commission, as an aid to the commission's investigations and later for publication in their report to Congress now in course of preparation. The statistics as tabulated for use of the commission will comprise the most complete and comprehensive data relating to the banking institutions of this country ever before printed.

In 1908 reports were received and tabulated from 21,346 banks of all classes with aggregate resources of \$19,583,410,393. Summary of reports received and tabulated by the National Monetary Commission includes 22,491 banks with aggregate resources of \$21,095,054,420. The increase over 1908 is 1,145 in the number of banks and \$1,511,644,027 in the total resources.

In the request for reports the cashier was advised to indicate on his report the class of bank. The classification, as made by the individual bankers, has been followed generally in the compilation, the exceptions being in cases where the term "state" checked off on the report undoubtedly intended to mean an "incorporated" bank, the title and character of business exhibited indicating a stock savings bank or trust company.

Abstracts of reports of condition of each class of banks, arranged by States and reserve cities, will appear in the appendix to this report, and a summary of reports of all reporting banks is presented herewith.

•

## STATE, SAVINGS, AND PRIVATE BANKS, AND LOAN AND TRUST COMPANIES.

Summarizing the reports obtained as of April 28, 1909, it is shown that there were in operation on that date 15,598 banks other than national with aggregate resources of \$11,726,170,577, indicating an increase of 1,076 in the number of banks and \$856,724,584 over the amount of resources reported in the previous year. The returns include 11,319 state banks, 1,703 savings banks (642 of which were of the mutual class, that is, those without capital stock), 1,497 private banks, and 1,079 loan and trust companies.

Capital stock of the state banks aggregates \$416,059,900, individual deposits \$2,466,958,665, and all resources \$3,338,669,134. Savings bank reports to the number of 1,703 show deposits aggregating \$3,713,405,709 and resources \$4,072,710,105. The 1,079 loan and trust company reports show aggregate resources of \$4,068,534,982 and deposits of \$2,835,835,180. Bankers' directories published at the beginning of the current year give the names of 4,325 private banks in operation, but a large majority of such banks, so called, are firms whose business is confined chiefly to brokerage and exchange. Private bank reports were obtained from 1,497 concerns, with capital of \$27,726,922, individual deposits of \$193,263,224, and aggregate resources of \$246,256,355.

In order to ascertain the number of depositors in savings banks as of April 28, 1909, for use of the National Monetary Commission and for incorporation in this report, the Comptroller mailed to all savings banks, both of the mutual and stock savings classes, a special request for information as to the amount of deposits and the number of depositors as shown by the books of the banks on the date named. Later, at the suggestion of the commission, it was determined to extend this inquiry to all banks, and a similar request was made of all other banks which made reports of conditions as of April 28, 1909, asking for information relating to the amount and character of deposits held and the number of depositors for each class of banks as of June 30, 1909, together with the average per cent of interest paid on each class of deposits and the minimum sum upon which interest is allowed. Out of the total of 22,491 banks which submitted reports of condition as of April 28, 18,245 banks submitted this supplementary report.

Supplementary returns, while not so complete as could be desired, furnish interesting data. The number of depositors shown must be understood as deposit accounts. It is not possible to determine the number of individual depositors, as many business men have accounts with two or more banks, and individual depositors in not a few instances keep two classes of accounts in the same bank. The banks reporting had 25,645,604 depositors or deposit accounts, and deposits of \$13,595,599,850. The sum of \$5,678,735,379 represents savings and time deposits credited to 14,894,696 depositors, all other deposits, exclusive of bank deposits, amounting to \$7,916,864,471, to the credit of 10,750,908 depositors. It further appears that the average interest paid by the banks was 3.55 per cent on savings accounts and 3.10 on other accounts. The average rate of interest paid by national banks on savings accounts was 3.34; by state banks, 3.71 per cent; mutual savings, 3.85 per cent; stock savings, 3.60

per cent; private banks and loan and trust companies paying the same average rate, 3.43 per cent. National banks to the number of 4,075 reported 2.97 per cent as the average rate of interest paid on accounts other than savings and 2,517 reported no interest paid on such accounts. Of the state banks furnishing supplemental reports, 4,016 report an average of 3.34 per cent paid on accounts other than savings and 2,560 report no interest paid on such accounts; 1,682 gave no information on this subject. Four hundred and five private banks report 3.08 per cent paid on nonsavings accounts, 321 report no interest paid, and 267 gave no information. Of the loan and trust companies 613 paid 2.34 per cent on nonsavings accounts, 169 paid no interest, and 80 gave no information. Of the commercial banks reporting, 3,620 reported a minimum deposit of \$1 or less upon which interest is allowed; 1,219 reported a minimum deposit of over \$1 and up to \$5; 317 allowed interest on amounts of \$10 and over \$5; 229 on amounts of \$25 and over \$10; 293 on amounts of \$50 and over \$25; 593 on amounts of \$100 and over \$50; 128 on amounts of \$250 and over \$100; 456 on amounts of \$500 and over \$250; 1,173 allowed no interest on accounts under \$500; and 8,677 gave no information on this subject.

In the following table is the summarized reports of condition as of April 28, 1909, obtained from state banks, savings banks, private banks, and loan and trust companies.

The foregoing statistics indicate that aggregate resources have more than doubled since 1900, the increase since that date being \$5,884,511,757. In 1907 the increase over 1906 was \$805,163,670, while the figures for 1908 show a decrease of \$299,168,523 as compared with those of 1907.

Combining the returns from national banks as of April 28, 1909, with those obtained from other banks for the same date, gives a total of 22,491 reporting banks with aggregate capital of \$1,800,036,368 and aggregate resources of \$21,095,054,420.

The increase in the aggregate resources of all reporting banks over the resources for the year 1908 is \$1,511,600,000. It will also be observed that banks other than national have over 55 per cent of the aggregate resources of all reporting banks; over 65 per cent of individual deposits; and over 56 per cent of the aggregate loans. Of the surplus and profits, 55 per cent is credited to this class of banks, while they have only about 48 per cent of the capital and 36 per cent of the cash holdings of all banks.

Individual deposits in all reporting banks are \$14,035,500,000, and estimating the deposits in 3,021 nonreporting banks at about \$389,700,000 the individual deposits in all banking institutions of the country are approximately \$14,425,000,000. The amount of cash in the vaults of the banks of the United States and island pos-

sessions has increased from \$1,368,300,000 in 1908 to \$1,452,000,000 in 1909; \$83,700,000 representing the addition to the cash holdings of the banks during the year, as against an increase of about \$254,600,000 for the year ended June 30, 1908. The banking power of the United States in 1909 as measured by capital, surplus and other profits, deposits and circulation of national and other reporting banks, together with the estimated amount of funds of this character in the nonreporting banks, is shown to be approximately \$18,850,000,000, an increase of over 266 per cent since 1890, when Mulhall estimated the banking power of the United States at \$5,150,000,000.

Since 1900 the growth in the banking institutions of the country has been noteworthy both as to the number of banks organized and the volume of business transacted. In 1900 the total number of banks in operation as estimated was 13,977, with capital of \$1,150,728,675 and individual deposits aggregating \$7,688,986,450. For the present year the number (including nonreporting banks) has increased to 25,512, with capital aggregating \$1,855,987,368 and individual deposits \$14,425,223,164.

National banks have increased since 1900 from 3,732, with aggregate capital of \$621,536,461, to 6,893, with aggregate capital of \$933,979,903 on April 28, 1909. Other reporting banks have increased from 6,650, with aggregate capital of \$403,192,214 in 1900 to 15,598, with aggregate capital of \$866,056,465 in 1909. In 1900 the non-reporting banks were 3,595 in number, with capital of \$126,000,000; for the present year the number of banks not reporting is estimated at 3,021, with capital of \$55,951,000. In 1900 national banks had 54 per cent of the capital and about 32 per cent of the individual deposits. For the current year the statistics show that national banks have a little more than 50 per cent of the capital and 33 per cent of the deposits of all of the banks of the country.

#### STATE BANKS.

Reports obtained from state banks represent practically all of this class of banks in operation, only 193 small banks failing to submit returns. The summaries of reports received by the Comptroller from a number of the state officials in 1908, classified as state banks, included in many instances loan and trust companies and savings banks. In the compilation for the present year the reports from the latter named institutions are placed in the class of banks where they undoubtedly belong. In view of this fact it is made to appear that the growth in state banks has not been material, and it is difficult to make proper comparison with the figures published for 1908. State banks to the number of 11,319, with aggregate capital of \$416,059,900 and resources of \$3,338,669,134, submitted reports for the current year. Of this number 381 banks, with capital of \$90,264,195 and aggregate resources of \$1,104,392,901, are located in the reserve cities. Geographically the state banks are located as follows: Nineteen in the New England States; 387 in the Eastern States; 3,312 in the Southern States; 3,717 in the Middle Western States; 3,026 in the Western States; 831 in the Pacific States; and 27 in the island possessions. The returns for 1908 from Texas and California included trust companies and those from South Dakota

and Utah, private banks, figures for these two classes of banks being eliminated from the compilation of returns relating to state banks in the States named for the current year. The State reporting the largest number of "state" banks is Missouri, with 964; Kansas being second, with 757 banks; Nebraska third, with 625 banks; Minnesota fourth, with 623 banks; and Oklahoma fifth, with 608 banks. In resources the 199 state banks of New York, with \$593,200,692, lead all other States in that respect. Missouri state banks are second in order, with \$217,627,439; California state banks third, with \$199,113,503; and Michigan state banks fourth, with \$197,817,012. New York has also the largest amount of capital invested in this class of banks, \$34,573,000; California being second, with \$32,264,576; Missouri ranking third, with \$27,332,860, and Illinois fourth, with \$24,958,300. The figures submitted in 1908 for Illinois as compiled by the state auditor included the capital stock of trust companies. Tables in the appendix contain complete details relating to state banks, arranged by States and reserve cities.

#### SAVINGS BANKS OF THE UNITED STATES.

Peculiar interest attaches to statistics relating to savings institutions inasmuch as they are the repositories of the accumulations of wage-earners mainly and an index to thrift. The functions of these institutions are essentially different from those of commercial banks, as savings banks are part of a system the aim of which is the safe and profitable investment of the funds of those who are not so situated as to invest their own money, and in this respect a mutual savings institution is the property of its depositors. Savings-bank reports to the number of 1,703 have been received, of which 642 are from mutual institutions and 1,061 from stock savings banks, the latter being operated for the benefit of both shareholders and depositors. The deposits in the savings banks aggregate \$3,713,405,709 and the number of depositors 8,831,863, exclusive of savings depositors in state banks of Illinois, which are eliminated from these figures for the reason that savings depositors in that State are included in a separate table showing depositors in state banks of the country. Including 641,634 depositors with deposits of \$204,908,505 in savings departments of Illinois state banks and trust companies savings bank depositors for the country will aggregate 9,473,497, and savings deposits \$3,918,314,214. Of the 1,703 savings banks reporting as of April 28, 1909, 1,540 furnished a supplemental report showing savings deposits aggregating \$3,633,942,072 credited to 8,617,213 depositors. The number of depositors in the 163 banks which failed to furnish information in regard to the number of depositors has been carefully estimated on the basis of returns of reporting banks.

The principal items of resources and liabilities of savings banks, both mutual and stock, on June 30, 1908, and April 28, 1909, are as follows:

Classification.	June 30, 1908.	April 28, 1909.
Loans (including mortgages owned).....	\$1, 872, 098, 690	\$2, 033, 268, 601
Bonds.....	1, 586, 939, 788	1, 713, 270, 914
Deposits.....	3, 479, 192, 891	3, 713, 405, 710
Aggregate resources.....	3, 809, 533, 152	4, 072, 710, 105

In connection with the foregoing statement it should be noted that deposits in savings departments of 6 state banks of New Hampshire are included with statistics for state banks, and the returns from 29 trust companies of Vermont heretofore included with mutual savings banks are incorporated for the current year with the returns from trust companies.

#### MUTUAL SAVINGS BANKS.

All the mutual savings banks are located in the New England and Eastern States, with the following exceptions: One in West Virginia, 3 in Ohio, 5 in Indiana, 3 in Wisconsin, 10 in Minnesota, and 1 in California. The number of reporting institutions is 642, while the number reporting in 1908 was 676. For the current year reports from 8 guaranty savings banks of New Hampshire and 29 trust companies of Vermont, heretofore included with reports relating to mutual savings banks, have been excluded from the returns relative to such banks. The aggregate resources of the mutual savings banks on April 28, 1909, were \$3,394,926,005. The aggregate resources for 1908, which, as stated, included the reports now eliminated, were \$3,331,737,125. The loans and mortgages in 1909 are stated at \$1,590,181,366, not including overdrafts amounting to \$89,070. The loans secured by real estate or other collateral aggregate \$1,528,949,012, and those unsecured by collateral \$61,232,353, the total amount classified as reported being shown in the following table:

Loans on demand, secured by collateral.....	\$34,602,357.91
Loans on time, secured by collateral.....	131,228,863.72
Loans secured by real-estate mortgages, or other liens on realty.....	301,022,328.96
Mortgages owned.....	1,062,095,462.40
Loans on demand, unsecured by collateral.....	9,107,159.66
Loans on time:	
Unsecured by collateral, two names.....	41,298,063.34
Unsecured by collateral, one name.....	8,452,265.32
Loans not classified.....	2,374,864.88
Total.....	1,590,181,366.19

The investments by mutual savings banks in bonds and other securities in 1908 aggregated \$1,512,940,551. Investments of this character in 1909 were \$1,599,532,371, scheduled as follows:

United States bonds.....	\$33,353,576.12
State, county, and municipal bonds.....	685,099,502.18
Railroad bonds.....	743,425,893.93
Other stocks and bonds, including railroad and bank stocks.....	137,653,399.71

Compared with returns for 1908 individual deposits, then reported at \$3,065,686,012, have increased to \$3,144,584,874, a gain of \$78,898,862, notwithstanding the fact that certain bank returns included, as heretofore indicated, in the statement of 1908 have been eliminated from this class of statistics for the present year.

Cash in the 642 reporting mutual savings banks amounted to \$14,630,248. In 1908 cash reported by 676 banks classed as mutual savings banks aggregated \$32,446,782, the decrease being caused partially by the reclassification before mentioned and by the reduction of deposits, chiefly in New York, where exceptional investment opportunities were afforded by the low prices for securities.

The mutual savings banks hold more than 22 per cent of the aggregate individual deposits of all the banks of the country, and over 26 per cent of the total deposits are in the two classes of savings banks. Over one-half of the deposits in mutual savings banks, or \$1,595,162,768, are held by 31 banks in the city of New York and 75 banks located in 11 other reserve cities, namely, Boston, Albany, Brooklyn, Philadelphia, Pittsburg, Baltimore, Cleveland, Milwaukee, Minneapolis, St. Paul, and San Francisco. New York City alone holds nearly one-half of the amount to the credit of depositors in mutual savings banks in the cities named, \$743,858,253 being on deposit in mutual savings banks in that city on April 28, 1909. Deposits in Brooklyn savings banks aggregated \$216,267,834 and in Boston savings banks \$208,443,392.

Of the 642 mutual savings banks reporting, 627 furnished a supplemental report giving information relative to the number of depositors, etc., on April 28, 1909. From a compilation of these supplemental reports it appears that the 627 banks in question had 7,204,579 depositors with savings accounts aggregating \$3,138,763,704. These figures include 106 banks located in the reserve cities mentioned, with \$1,599,608,984 deposits and 3,379,038 depositors. The reports show also that there were 1,335,256 depositors in the mutual savings institutions in the city of New York, 612,516 in those of Boston, 447,768 in Brooklyn, 382,088 in Philadelphia, and the remaining 601,410 in the other cities named. Interest to the amount of \$114,899,550 was paid on deposits by mutual savings banks during the current year.

#### STOCK SAVINGS BANKS.

Stock savings banks to the number of 1,061 made reports, their capital stock being \$59,506,420, individual deposits \$568,820,835, loans \$442,998,163 (including mortgages owned), investments in bonds, stocks, etc., \$113,738,542, cash in bank \$18,066,773, aggregate resources \$677,784,099. All of these items show large increases over the amounts reported for 1908, which is due chiefly to the fact that many of the savings banks included in the statements compiled were not separated from state banks in former tabulations prepared by state bank officials. The foregoing figures include those relative to 92 stock savings banks located in the various reserve cities with aggregate resources of \$275,270,899.

The supplemental statements furnished by 913 banks of this class show deposits held amounting to \$495,178,367 credited to 1,412,634 depositors, and interest to the amount of \$15,027,311 paid on deposits during the past year. Eighty-three of the stock savings banks making supplemental reports are located in the reserve cities, their aggregate deposits being \$206,803,323 credited to 505,885 depositors, the amount of interest paid to these depositors during the past year being \$6,548,557.

#### MUTUAL AND STOCK SAVINGS BANKS.

The number of depositors in all savings banks reporting, exclusive of those having accounts in savings departments of state banks in Illinois, has increased since 1900 from 5,898,091 to 8,831,863 and the average deposit from \$404.33 to \$420.45. In 1908 the number of depositors, excluding those in Illinois from the calculation, was

8,088,066 and the average deposit account \$430.16. For the current year, owing to the greater number of stock savings bank returns incorporated in the table, the number of depositors has increased by 743,797 but the average deposit account appears to have decreased by \$9.71.

In the following comparative statement is indicated the number of depositors, amount of deposits, and the average savings deposit in savings banks in the States named for the years 1908 and 1909. Included in the statistics for the year 1908 are deposits in savings departments of many banks in operation in the State of Illinois, for the reason that the auditor of public accounts of that State, in his periodical statements, reports separately such deposits from deposits subject to check. The statistics for 1909, however, do not include these deposits in view of the fact that reports upon the number of depositors have been received and compiled for the several classes of banks and the Illinois savings depositors are shown in the table relating to state-bank depositors. Compared with 1908 there has been a gain of 250 in the number of reporting banks and of \$234,212,818 in the amount of deposits, excluding savings department depositors and deposits reported in 1908 from Illinois state banks. The supplemental reports obtained from 339 state banks and trust companies of Illinois having savings departments show savings deposits of \$204,908,505 and 641,634 depositors on June 30, 1909. The number of depositors has been estimated for 163 savings banks which made reports as to the amount of deposits held, but failed to give the number of depositors.

NUMBER OF SAVINGS DEPOSITORS, AGGREGATE SAVINGS DEPOSITS, AND AVERAGE AMOUNT DUE TO DEPOSITORS IN SAVINGS BANKS, IN EACH STATE IN 1908 AND 1909.

a Partially estimated.

b Included in abstract of State banks having savings departments. Reports obtained for the National Monetary Commission show that 339 State banks and trust companies of Illinois with \$204,908,505 savings deposits had 641,634 depositors on June 30, 1909.

It will be noted by reference to the foregoing table that 7,024,476, or nearly 80 per cent of all depositors in savings banks are reported by banks in the New England and Eastern States, and a little more than 81 per cent of deposits in this class of banks is held by savings banks in these two geographical sections. There are 902,676 depositors with \$306,785,344 deposits reported by savings banks of the Middle Western States, 491,770 depositors with \$266,195,044 deposits in banks of the Pacific States, 344,632 depositors with \$81,369,104 deposits in savings banks of the Southern States. There are 2,760,343 savings-bank depositors in New York, 1,783,024 of which have accounts on the books of New York City and Brooklyn savings banks.

Massachusetts savings banks reported 2,002,010 depositors, of whom over one-third are depositors in banks in the city of Boston.

The next largest number of depositors in savings banks is reported by Pennsylvania banks, the number in that State being 452,487; California savings banks following with 443,334, the city of San Francisco banks reporting 184,582 of this number.

The growth of savings banks in the United States from 1820 to 1909 as evidenced by the amount of deposits, number of depositors, average deposit account, and average per capita in census years from 1820 to 1890 and annually thereafter is shown in the following table. The figures given, with the exception of those for 1909, include the number of depositors and amount of deposits in the state banks of Illinois having savings departments, but not the number of such banks by reason of the fact that reports from these institutions are incorporated with the state bank returns. For the current year the returns from Illinois are eliminated from this statement.

#### PRIVATE BANKS.

Private banks to the number of 4,325 are listed in bankers' directories for March, 1909; over one-half of this number perhaps includes firms whose business is confined to brokerage and exchange and can not properly be classed as commercial banks. In 1908 reports from 1,007 private banks with capital of \$21,122,836 and aggregate resources of \$161,541,480 were received and tabulated. For the present year 1,497 private banking institutions furnished reports as of April 28, 1909. From the returns submitted it appears that the aggregate capital is \$27,726,922, surplus and profits \$15,728,243, deposits \$193,263,224, cash on hand \$11,053,706.52, loans and discounts, including overdrafts, \$165,918,988, aggregate resources \$246,256,355. It appears that on June 30, 1909, there were 130,865 depositors with savings or time accounts aggregating \$32,444,592 and 307,669 with accounts other than savings aggregating \$90,721,745. In the appendix is an abstract of reports of condition of private banks arranged by States and reserve cities, together with a comparative statement of resources and liabilities for each year from 1905 to 1908.

#### LOAN AND TRUST COMPANIES.

Summaries of bank reports received in 1908 from a number of States include returns from loan and trust companies with those from state banks. In view of this fact the increase in the number of loan and trust companies reporting for 1909 appears to be unusually large. The number of these companies furnishing special reports for 1909 is 1,079, against 842 incorporated in the returns submitted in 1908. Resources reported by these institutions as of April 28, 1909, aggre-

gate \$4,068,534,982. Three hundred and five of these companies with resources aggregating \$3,048,457,789 are located in the central reserve cities of New York, Chicago, and St. Louis and in 35 other reserve cities. The largest number of trust companies is located in Pennsylvania, reports having been obtained from 278 in that State, but the 85 trust companies located in New York hold about 32 per cent of the resources of all reporting trust companies. The paid in capital stock of trust companies amount to \$362,763,223, surplus and profits \$493,382,193, individual deposits \$2,835,835,180, the loans aggregate \$2,064,666,503, divided as follows: On real estate, including mortgages owned, \$377,318,280, loans on other collateral \$1,222,881,129, loans unsecured by collateral \$460,550,859, overdrafts secured \$2,049,455, overdrafts unsecured \$1,866,779. The investments include \$3,222,380 United States bonds, \$155,647,931 State, county, and municipal bonds, \$362,404,241 railroad bonds, and \$468,914,756 other stocks, bonds, and securities. The amount due from other banks is \$578,243,506, and the cash on hand \$254,447,910. From the supplemental report furnished by 862 trust companies it appears that there were 1,965,333 depositors credited with \$657,697,417 savings and time deposits, together with 1,283,686 depositors having nonsavings deposits to the amount of \$2,147,717,733. There are 247 loan and trust companies located in the reserve cities heretofore mentioned having 1,008,192 savings depositors, \$347,822,283 savings deposits, and 647,590 depositors with \$1,742,010,086 nonsavings accounts.

In 1900 reporting loan and trust companies held 14.2 per cent of the individual deposits in all banks, in 1907, 15.7 per cent; in 1908, 14.6 per cent; and in 1909, 20.2 per cent.

#### CAPITAL STOCK OF NATIONAL AND OTHER BANKS.

A consolidation of the reports obtained show that the aggregate amount of paid-in capital stock of the banks of the United States including island possessions is \$1,800,036,368, an increase of about 2½ per cent for the year and over 75 per cent above the amount reported on June 30, 1900. The amount invested in capital of banks located in the Eastern States is \$581,370,131; in the Middle Western States, \$509,622,221; in the Southern States, \$297,137,727; in the Pacific States, \$149,279,601; in the New England States, \$138,499,518; in the Western States, \$118,075,127; and in the island possessions, \$6,052,043. New York has over \$263,000,000 invested in bank capital, a larger amount than any other State, Pennsylvania being next with \$229,000,000, Illinois third with \$122,000,000, and Ohio fourth with \$101,000,000. In the New England States Massachusetts is first with \$72,000,000, Connecticut second with \$25,000,000, and Rhode Island third with \$14,000,000. In the Southern States Texas is first with \$57,000,000, Kentucky second with \$36,000,000, Georgia third with \$31,000,000. Of the Middle Western States, Illinois is first with \$122,000,000, Ohio second with \$101,000,000, Missouri third with \$79,000,000. Of the Western States Kansas is first with \$26,000,000, Nebraska second with \$25,000,000, Oklahoma third with \$19,000,000. Of the Pacific States California is first with \$96,000,000, Washington second with \$20,000,000, Oregon third with

\$11,000,000. In the island possessions \$3,000,000 capital is invested in the banks of Hawaii, \$1,454,302 in Porto Rico, and \$1,532,664 in the Philippines.

#### AVERAGE RATES OF INTEREST PAID BY SAVINGS AND OTHER BANKS.

In connection with general information obtained, returns were secured from savings and other banks, as heretofore stated, relating to the amount of interest-bearing deposits and rates of interest paid thereon.

The 627 reporting mutual savings banks paid interest during the last year at an average rate of 3.85 per cent and 913 stock savings banks at the rate of 3.60 per cent. In 1908 the average rate paid by both classes of savings banks was 3.62 per cent. The average rate paid during the current year by mutual savings banks in the New England States was 3.89 per cent, the minimum, 3.55 per cent, being the average rate in New Hampshire, and the maximum, 3.96 per cent, in Massachusetts and Connecticut. The average rate in the Eastern States was 3.76 per cent. Pennsylvania shows the lowest average rate, namely, 3.32 per cent, and Delaware the highest, 4 per cent. Very generally the savings banks in New York pay 4 per cent, but the average is shown to be 3.90 per cent. There are a limited number of mutual savings banks in Ohio, Indiana, Wisconsin, and Minnesota, the average rate of interest paid varying from 3.60 per cent in Minnesota to 4.25 per cent in Wisconsin, the average for this section being 3.79 per cent. The average rate in California, the only State in the Pacific Division having a mutual savings bank, is 4 per cent. The average rates paid by stock savings banks in the various geographical divisions are as follows: New England States, 3.50 per cent; Eastern States, 2.98 per cent; Southern States, 3.68 per cent; Middle Western States, 3.60 per cent; Western States, 3.63 per cent; Pacific States, 3.64 per cent.

The average rate of interest paid by 862 reporting trust companies on savings accounts was 3.43 per cent, but from information received it appears that 613 companies pay an average rate of 2.34 per cent on other accounts.

Reports from 4,691 State banks show that interest at the average rate of 3.71 per cent is paid on savings accounts, and reports from 4,016 banks, the payment of interest on other accounts at an average rate of 3.34.

Nine hundred and ninety-three private bank reports show the average rate on savings accounts as 3.43 per cent, a limited number paying an average of 3.08 per cent on other accounts.

Savings accounts are reported as being carried by 3,515 national banks, the average rate of interest being 3.34 per cent. Interest at the average rate of 2.97 is paid on other accounts by 4,075 national banks and reports from 2,517 associations state that no interest is paid.

Information in detail in relation to the rates of interest paid on savings accounts by reporting banks is shown in the following table.

From the foregoing table it will be observed that the deposits, including government deposits, held by the banks of the country, aggregate \$14,105,924,984. Excluding government deposits, the individual deposits aggregate \$14,035,523,165. The individual deposits reported for 1908 were \$12,784,511,169, thus showing a gain of \$1,251,011,996 in 1909 over 1908. In round amounts the national banks hold \$4,826,000,000 individual deposits, savings banks \$3,713,000,000, loan and trust companies \$2,835,000,000, state banks \$2,466,000,000, and private banks \$193,000,000. Geographically, the individual deposits reported by banks in the Eastern States aggregate \$6,047,000,000, in the New England States \$2,106,000,000, in the Middle Western States \$3,196,000,000, in the Southern States \$1,059,000,000, in the Pacific States \$897,000,000, in the Western States \$700,000,000, and in the island possessions \$28,000,000.

National banks of the Middle Western States hold the largest amount of government deposits—\$20,563,000—those of the Eastern States hold \$15,992,000, of the Western States \$8,311,000, of the Pacific States \$7,814,000, of New England States \$3,480,000, and national banks of the island possessions \$331,455. The total government deposits held by the national banks on April 28, were \$70,401,818. The figures for United States deposits include deposits of United States disbursing officers, amounting to \$12,620,562.

From a further examination of the table it will be noted that the amount of savings deposits held by all the banks of the country is \$4,926,161,555. Of this amount \$3,506,603,926 was in savings banks, \$576,783,099 in loan and trust companies, \$451,349,051 in state banks, \$376,052,530 in national banks, and \$15,372,946 in private banks. The largest amount of deposits under the classifications shown for April 28, 1909, is individual deposits subject to check aggregating \$6,956,502,690, \$3,514,726,043 being on the books of the national banks and the remainder, \$3,441,776,644, of all other banks. Demand certificates to the amount of \$625,189,163 in all reporting banks include \$378,690,002 in national banks and \$246,499,161 in all other banks. Time deposits, including time certificates of deposits, aggregate \$1,211,831,194, \$844,818,608 of this amount being reported by banks other than national and \$367,012,586 by national banks. Certified checks to the extent of \$116,575,530 and \$73,003,690 in cashiers' checks were reported by national banks and \$60,428,688 certified checks and \$21,007,935 cashiers' checks, etc., by all other banks. Banks other than national reported \$44,422,717 unclassified deposits.

The information secured relative to deposits is of especial interest at this time, when the adequacy of present means for the custody of the people's savings is under discussion. It is shown in the foregoing table that deposits amounting to over \$4,926,000,000, or 35 per cent, of the total individual deposits in all banks are savings deposits, and in addition over \$1,211,000,000 are time deposits. The individual deposits subject to check aggregate over \$6,956,500,000, demand certificates of deposit over \$625,000,000, and the aggregate of other minor classifications is over \$315,900,000.

As fluctuations of deposits in the banks of the country from year to year indicate in a large measure economic conditions, it is of interest to note that since June 30, 1900, individual deposits in

reporting banks have increased over 93 per cent, the amount of deposits on that date being \$7,238,986,450. The highest per cent of annual increase since the year 1900 was in 1901, the gain in deposits for the fiscal year ending June 30, 1901, being over 16 per cent. Reports for the year ended June 30, 1905, show an increase of over 13 per cent. The next highest increase is shown in the reports submitted as of April 28, 1909, the gain in deposits over amount reported for 1908 being more than 9 per cent. Deposit accounts from June 30, 1907, to the corresponding date in 1908 declined nearly 2½ per cent, this reduction being caused by the monetary crisis in the fall of 1907. The following table shows the percentage of gain for each year over the preceding year:

Year.	Per cent.	Year.	Per cent.
1901.....	16.8	1906.....	7.6
1902.....	7.6	1907.....	7.2

The following table shows the amount and per cent of deposits held by the several classes of banks in 1900, 1908, and 1909:

Classification.	1900.		1908.		1909.

Total.....	7,238.9	100.0	12,784.5	100.0	14,035.5	100.0

From the foregoing it will be seen that national banks have been steadily gaining in the proportion of individual deposits held by all banks, the 34 per cent held in 1900 rising to 34.2 per cent in 1908 and to 34.4 per cent in the present year. Savings banks, which held 33 per cent of individual deposits in 1900, now hold only 26.4 per cent, while loan and trust companies, reported as holding 14.2 per cent of the deposit accounts of individuals in 1900, now hold 20.2 per cent of such deposits in all reporting banks. The proportion held by state and private banks has increased but slightly since 1900, but the figures indicate that about 5½ per cent of total deposits has shifted from state banks to loan and trust companies since June 30, 1908, caused chiefly by the fact that a different classification has been made in the current statistics and that the data relating to state banks in 1908 included many trust company reports, which are now included in their proper class.

The following table shows the amount of individual deposits in national and other reporting banks by geographical divisions on or

about June 30, 1908, and on April 28, 1909, together with the amount and per cent of increase:

While the figures published in 1908 show a decrease in individual deposits in every section except in the New England States from the amounts reported in 1907, the returns for 1909 show an average increase of 9.78 per cent over the preceding year for the whole country. Outside of the island possessions, where an increase of 40.97 per cent is shown, the largest per cent of increase is in the Western States—18.21. The Southern States show an increase of 15.91 per cent, the Eastern States an increase of 11.41 per cent, the Pacific States 6.83 per cent, the Middle Western States 6.41 per cent, and the New England States 5.99 per cent. The following comparative statement shows the increase in population, individual deposits, and money in circulation in the United States, exclusive of the island possessions, for 1907, 1908, and 1909:

## MONEY IN BANKS OF THE UNITED STATES.

On April 28, 1909, the amount of reported cash on hand was \$1,452,014,676, against \$1,368,329,683 in 1908, a gain of about \$83,700,000. In 1908 the gain in cash over 1907 was more than \$254,000,000. Over 63 per cent of the cash holdings of the banks of the country is in national banks, as will be seen from the following table, showing the amount of coin and other money in the United States on April 28, 1909, held by national and other banks, including those in the island possessions:

<sup>a</sup> Includes gold treasury certificates to order and clearing-house certificates, section 5192.

<sup>b</sup> Includes fractional paper currency, nickels, and cents.

The returns for 1909 are more complete as to details of cash holdings than those submitted for 1908. The unclassified specie and cash reported in 1908 amounted to over \$303,000,000, while for the present year practically all cash held appears to have been properly segregated in the reports, as only about \$22,000,000 is not classified. It will be noted that about 56 per cent of the cash consists of gold coin and gold certificates, \$226,866,397 being gold coin and \$582,707,820 gold certificates. Fourteen per cent of the cash holdings consists of silver and silver certificates, 18 per cent of legal-tender notes, 8 per cent of national-bank notes, and 4 per cent of unclassified cash and minor coins.

The following table shows the cash holdings of banks in 1908 and 1909 and the amount of increase by geographical divisions:

<sup>a</sup> Decrease.

<sup>b</sup> Net increase.

On April 28, 1909, banks in the New England States held, in round amount, actual cash in the sum of \$88,300,000; those in the Eastern States, \$716,200,000; in the Southern States, \$105,800,000; in the Middle Western States, \$373,400,000; in the Western States, \$71,000,000; in the Pacific States, \$89,600,000, and the banks of the island possessions, \$7,700,000. The net increase in the cash holdings during the year, as stated, is \$83,700,000, every section showing an increase with the exception of the Pacific States, where there was an apparent decrease of \$10,700,000. The banks of the Eastern States gained \$59,600,000; those of the New England States \$12,100,000; the Southern States \$10,000,000; the Middle Western States, \$6,400,000; the Western States \$4,000,000, and the island possessions, \$2,300,000.

The geographical distribution of money in the banks of the United States in 1900, 1907, 1908, and 1909 is shown in the following table:

In noting the geographical distribution of cash holdings it will be observed that nearly 50 per cent of the aggregate is in banks of the Eastern States. The cash holdings of banks in that section in 1909 was 49.59 per cent, against 48.17 per cent in 1908, 46.92 per cent in 1907, and a fraction more than the percentage of 49.22 per cent shown in 1900. The proportion of cash held by the banks of the Middle Western States was 25.85 per cent. Banks in this section in 1908 held 26.93 per cent of the total cash holdings, in 1907, 27.64 per cent, and in 1900, 26.03 per cent. The banks of the Southern States held 7.33 per cent, against 7.03 in 1908 and 7.88 per cent in 1907. The banks of the Pacific States hold 6.20 per cent, against 7.35 per cent in 1908 and 6.83 per cent in 1907; those of the New England States hold 6.11 per cent, against 5.59 per cent in 1908 and 5.74 per cent in 1907. The banks in the Western States hold 4.92 per cent; in 1907 and 1908 the percentages of cash holdings of banks in this section were 4.99 per cent and 4.93 per cent, respectively.

In the appendix will be found a table showing the amount of gold coin, gold certificates, silver dollars, silver certificates, legal-tender notes, national bank notes, subsidiary and minor coins held by banks in each State and geographical section. The State with banks having the largest holding of gold coin is California, \$33,859,900 being reported on hand on April 28, 1909; there was over \$19,800,000 gold coin in Pennsylvania banks on that date, \$17,489,000 in Illinois banks, \$16,368,000 in New York banks, \$12,089,000 in Washington banks, \$10,970,000 in Oregon, \$10,715,000 in Ohio, and \$10,031,000

in Missouri banks. In the banks of New York \$356,000,000 was held in gold certificates, in the Illinois banks \$46,000,000, and in the banks of Pennsylvania \$43,000,000 was reported.

The State having the largest amount of silver dollars in banks is Texas, \$1,938,000; Pennsylvania banks are next in order, with \$1,676,000; Ohio banks third, with \$1,280,000; Illinois banks fourth, with \$1,188,000; and Missouri banks fifth, with \$1,159,000.

The largest amount of silver certificates in the banks of any one State is reported by the banks of New York, \$67,584,000; Illinois comes next with \$25,143,000, followed by Pennsylvania with \$18,621,000, Massachusetts with \$14,410,000, and Missouri with \$10,269,000. The banks of New York also hold the largest amount of legal-tender notes, \$90,388,000 being in the vaults of banks in that State; \$43,435,000 was in Illinois banks, \$22,445,000 in Pennsylvania banks, \$12,647,000 in Ohio banks, and \$11,218,000 in Massachusetts banks. The holdings of national bank notes also appear to have been the largest in New York banks, namely, \$19,752,000. Over \$11,627,000 in national bank notes was held by Pennsylvania banks, \$11,166,000 by Illinois banks, \$8,311,000 by Ohio banks, and \$5,204,000 by Massachusetts banks. The largest amount of national bank notes held in any geographical section, \$38,886,000, was in the Middle Western States banks, the amount held by banks in the Eastern States being \$34,756,000. Of subsidiary and minor coins the banks of New York held \$4,716,344, Pennsylvania \$3,244,761, Illinois \$1,798,389, and Texas \$1,735,929.

<sup>a</sup> Public money in national-bank depositaries to the credit of the Treasurer of the United States not included.

<sup>b</sup> Money in banks of island possessions not included.

<sup>c</sup> Compiled from special reports, April 28, 1909.

In this connection it should be stated that the data relating to the stock of money and amount held in the Treasury have been used as of June 30 for the reason that the figures for this date have been carefully revised by the Treasurer's office and are used in all annual publications of the department. The amount of money on May 1, the day nearest the date of the special reports obtained from the banks, remains the same, but the money in the Treasury as assets on that date was \$8,700,000 greater than on June 30, as shown in the table. By using the details of figures showing monetary stock on May 1 the per cent of money in the Treasury will be 9.06, the amount not in the Treasury or banks 48.50, or \$1,652,300,000 instead of \$1,661,900,000, and the per capita of money not in the Treasury or banks \$18.54 instead of \$18.68. The amount in circulation will also be reduced to \$3,096,600,000 from \$3,106,200,000.

The general stock of money in the United States at the close of the year ended October 31, 1909, was \$3,427,889,113, an increase during the year of \$46,809,379. As shown in the following table, the stock of gold decreased to the extent of \$644,613, and Treasury notes of 1890 to the extent of \$671,000. National-bank notes increased to the extent of \$38,096,564, silver certificates by \$9,340,521, and standard silver dollars by \$687,907.

<sup>a</sup> A revised estimate by the Director of the Mint of the stock of gold coin was adopted in the statement for August 1, 1907. There was a reduction of \$135,000,000.

<sup>b</sup> For redemption of outstanding certificates an exact equivalent in amount of the appropriate kinds of money is held in the Treasury, and is not included in the account of money held as assets of the Government. This statement of money held in the Treasury as assets of the Government does not include deposits of public money in national-bank depositaries to the credit of the Treasurer of the United States.

From the foregoing it appears that the total loans and discounts in all reporting banks of the United States on April 28, 1909, were \$9,994,516,126, and including mortgages owned, the total is \$11,373,217,691. About 57 per cent of the loans of all banks is secured by collateral, including real estate. About \$1,939,000,000 of secured loans are on demand and also \$660,000,000 of the unsecured loans. Over \$2,539,000,000 of time loans are on paper with two or more names and \$1,351,000,000 is on single name paper. About \$269,000,000 of the loans reported were not classified. Of the \$69,000,000 reported as overdrafts, \$29,000,000 are secured. Loans on real estate reported as "mortgages owned" aggregate \$1,378,000,000. The demand loans amount to over 22 per cent of the aggregate, the real estate loans about the same proportion, all other loans being 56 per cent of the total.

The following table shows the amount of loans in national and other reporting banks by geographical divisions on or about June 30, 1908, and on April 28, 1909, together with the amount and per cent of increase:

Geographical division.	Loans.			
	1908.	1909.	Increase.

Islands.....	19.5	23.2	3.7	18.97
Total.....	10,438.0	11,373.2	935.2	8.95

From this statement it appears that the banks of the country have increased their loans since 1908 by \$935,200,000 or from \$10,-438,000,000 in 1908 to \$11,373,200,000 in 1909. In 1908 the banks of the Eastern States reported loans to the amount of \$4,104,300,000 while in 1909 the amount was \$4,531,400,000, an increase of \$427,-100,000, or 10.40 per cent. Loans of banks in the Middle Western States increased from \$2,693,000,000 in 1908 to \$2,963,300,000 in 1909, thus showing a gain of \$270,000,000, or 10.02 per cent. In the Southern States loans reported by the banks in 1908 aggregating \$1,039,900,000 have increased to \$1,127,200,000, a gain of \$87,300,000, or 8.39 per cent. The banks of the Western States increased their loans by \$77,800,000, or 15.29 per cent, the amount reported from that section in 1908 being \$508,700,000 and in 1909, \$586,500,000. There was a gain during the year in loans made by the banks located in the New England States of 2.96 per cent, the amount of loans in that section in 1908 aggregating \$1,384,900,000 and in 1909, \$1,425,-900,000. The banks of the Pacific States show a gain of \$28,300,000, or 4.11 per cent; the loans reported in 1908 amounting to \$687,400,-000 and in 1909 \$715,700,000. The banks of the island possessions reported loans amounting to \$23,200,000, a gain of \$3,700,000 over the amount reported in 1908. The largest percentage of increase in loans negotiated by banks of the United States was in the Western States, over 15 per cent, the gain in loans in the Eastern and Middle Western States being a little more than 10 per cent in each section. The statistics show a gain in loans of 18.97 per cent over the returns for 1908 from banks in the island possessions.

## BANK RESOURCES.

The resources of all reporting banks on April 28, 1909, aggregated \$21,095,054,420, and the average per capita \$215.37. In 1908 the aggregate was \$19,583,410,393, indicating a gain in 1909 of \$1,511,-644,027.

A table in the appendix shows the average per capita resources of each class of banks, state and national, and the per capita of all banks arranged by States and geographical sections. The average per capita of bank resources in the United States exclusive of the island possessions is \$237.24, a gain of \$13.09 during the year, the average per capita being \$224.15 in 1908.

Geographically stated, the largest gain was in the Eastern States, where the per capita increased from \$428.22 in 1908 to \$450.19 in 1909, a gain of \$21.97. Next in order of increase are the Western States, with \$18.43, or from \$142.92 in 1908 to \$161.35 in 1909; the New England States being third, with an increase of \$18.04, or from \$415.57 to \$433.61. The per capita gain of the Pacific States was \$13.36, or from \$334.41 in 1908 to \$347.77 in the present year. The increase in the Middle Western States was \$9.87, or from \$180.77 to \$190.64. The increase in the Southern States was the lowest, or from \$65.30 to \$71.19, a gain of only \$5.89. States showing a decrease were West Virginia, \$0.44, Alabama \$1.82, and Ohio \$4.52. The State of New York has the largest per capita bank resources, or \$676.07, Massachusetts is next with \$517.25, Nevada being third with \$512.72, California fourth with \$486.70, and Rhode Island fifth with \$457.12.

Besides the five States named having the largest per capita bank resources, West Virginia is first in the Southern States with \$112.66, Louisiana second with \$96.62, Texas third with \$90.68, and Virginia fourth with \$88.61. In the Middle Western States Illinois is first with \$240.39, Missouri second with \$215.50, Iowa third with \$214.78, Ohio fourth with \$203.66. In the Western States Colorado is first with \$250.65, Nebraska second with \$214.92, followed by Montana and Wyoming with \$207.72 and \$207.26, respectively. In addition to Nevada and California in the Pacific States already referred to, the per capita resources of Washington banks is \$296.23 and of Oregon \$225.52. Of the island possessions, Hawaii is first with \$71.99, Porto Rico second with \$11.24, and the Philippines, with a population estimated at 8,000,000, \$2.69.

The population of the United States as estimated by the actuary of the treasury, exclusive of the island possessions, at 88,716,000 on June 1, 1909, has been used in making the above calculations.

## GROWTH OF BANKING IN THE UNITED STATES.

In the appendix appears a table giving the number of colonial and state banks with the principal items of resources and liabilities in the years indicated from 1774 to 1833. In 1784 the 3 existing banks had combined capital of \$2,100,000, circulation, \$2,000,000 and specie, \$10,000,000. In 1800 the 28 banks show capital \$21,300,000, circulation \$10,500,000, specie \$17,500,000, and in 1820 there were 307 banks with capital of \$102,100,000, circulation \$40,600,000, deposits \$31,200,000, specie \$16,700,000. In 1830, 329 banks had \$110,100,000 capital, \$48,400,000 circulation, \$39,500,000 deposits, \$14,500,000 in specie, and \$159,800,000 in loans. The resources and liabilities of the banks of the country in detail from 1834 to 1863 are shown in the appendix.

The following condensed statement gives the principal items of resources and liabilities of state, savings, private banks, loan and trust companies, and national banks from 1864 to 1909, and shows the growth of banking in the country for the past forty-six years. For the current year statistics showing the same items separately for banks located in the reserve cities are incorporated in the table.

## STATE AND PRIVATE BANK FAILURES.

In 1896 the Comptroller of the Currency obtained data from national bank examiners secured by them from receivers, assignees, etc., of state banks relating to the amount of capital, liabilities, nominal assets, and dividends paid by insolvent state and private banks during the years 1864 to 1896, inclusive. In this period the failures reported were stated at 1,234, capital \$53,632,259, liabilities, \$220,629,988.27, assets \$214,312,190.58, and dividends paid \$100,088,726.95, or approximately 45 per cent. Since 1896 the only information obtained by this office in relation to failure of banks of this character is that secured from the Bradstreet Commercial Agency and relates only to the number of failures, together with the amount of liabilities and nominal assets. Incorporating the returns from 1897 to 1909, inclusive, with those received for the years 1864 to 1896, the number of failures is shown to have been 2,014, liabilities \$607,770,005.27, and nominal assets \$511,794,632.58.

In the following table is summarized the information secured, covering the period beginning with 1864 and ended on June 30, 1909:

NUMBER OF FAILURES, CAPITAL, ASSETS, LIABILITIES, AND DIVIDENDS PAID BY STATE AND PRIVATE BANKS THAT FAILED IN EACH YEAR FROM 1864 TO 1909.

For the year ended June 30, 1909, the Bradstreet Company reports the failure of 60 state and private banks, with aggregate liabilities of \$25,190,156, and nominal assets of \$15,760,177. The failures include 19 state banks, with liabilities of \$3,286,418; 2 savings banks, liabilities \$105,000; 6 trust companies, liabilities \$5,412,037; and 33 private banks, liabilities \$16,386,701. As will be noted, the number of failures of private banks represents 55 per cent of the total number of failures, with over 65 per cent of the aggregate liabilities.

In the appendix appears a table relating to failures of banks of these classes by years, 1892 to 1909, in each State and geographical division, which is summarized in the following table.

**NUMBER, ASSETS, AND LIABILITIES OF STATE BANKS, SAVINGS BANKS, LOAN AND TRUST COMPANIES, AND PRIVATE BANKS WHICH FAILED, BY

## BANKS AND BANKING IN THE DISTRICT OF COLUMBIA.

As stated elsewhere, building and loan associations in the District of Columbia have been placed under the supervision of the Comptroller of the Currency by an amendment of the Code of the District of Columbia, which went into effect during the past year. There are 22 of these associations, their share capital or deposits amounting to \$12,370,986 and aggregate resources to \$14,393,927. There are 11 national banks in the District, one having been organized during the past year. No increase has taken place in the number of trust companies, 5 being in operation, and there are 12 institutions entitled "savings banks," all of which, with one exception, are conducting commercial as well as savings bank business. Eleven of these institutions are operating under charter obtained from adjoining States, only one having been organized under District laws as a savings bank, but without the power of a bank of discount.

In the following table, based on September 1 returns from national banks, trust companies, savings banks, and June 30, 1909, returns from building and loan associations, are shown the number of banks and banking institutions in the District of Columbia, the amount of their capital stock, individual deposits, and aggregate resources. It will be observed that there are 50 institutions in operation, with capital of \$14,747,485; individual deposits (including share payments by members of the building and loan associations), \$71,451,152; and aggregate assets, \$113,704,068:

## BUILDING AND LOAN ASSOCIATIONS IN THE DISTRICT OF COLUMBIA.

On March 4, 1909, an act was approved amending section 691, subchapter 7, of the Code of the District of Columbia, relating to building and loan associations, the amendment authorizing the Comptroller of the Currency, whenever he may deem it useful, to cause an examination to be made into the condition of any building and loan association incorporated under the provisions of the code, as well as any other building and loan association located or doing business in the District of Columbia. Every such association is required to make to the Comptroller at least one report during each year. The amendment confers upon the Comptroller the power to take possession of any company or association whenever, in his judgment, it is insolvent or is knowingly violating the laws under which it is incorporated, and to liquidate such association in the manner provided in the laws of the United States in respect of national banks. On and after July 1, 1909, a strict compliance with the provisions of the code in question was required. To section 691 was added a new section, known as 691-A, providing that any building association,

incorporated or unincorporated, organized and existing under the laws of any State or Territory, except the District of Columbia, to do or now doing a building association business, or otherwise operating as a building association, shall be subject to all the provisions of section 691, and, further, that any such association or corporation shall at all times keep on deposit with the Comptroller in money or stocks, bonds, or mortgages or other securities, to be approved by that officer, not less than 10 per cent of its capital and surplus, as security for depositors and creditors and as a guaranty for the faithful performance of its contracts.

Prior to July 1, 1909, the foreign building and loan associations in the District discontinued business or removed from the District.

On June 30 there were in operation in the District 22 local building and loan associations, of which only 5 were incorporated. The plan of ten of the associations is reported as permanent, 10 as serial, and 2 terminating. All associations require monthly payments on shares, 19 of which provide for monthly payments of \$1, two of \$2, and one of \$2.50. The number of shares in force is 98,946, the number of nonborrowing members 20,143, and the number of borrowing members 6,982. The report shows that the uniform rate of interest charged borrowers is 6 per cent.

From the reports received it is shown that the liabilities of the associations on account of regular installments paid, installments anticipated, paid-up stock, and installments due are \$12,370,985.77; that the profits, divided and credited, are \$329,559.34, and undivided profits \$1,107,363.51. The assets aggregate \$14,393,927.21, of which loans on real estate amount to \$13,438,737.28, on stock pledged \$72,-850.06, real estate owned \$541,934.43, and cash with treasurers and secretaries \$225,241.86.

The condition of the associations in the District on June 30, as shown by their assets and liabilities and receipts and disbursements, is shown in the accompanying statement:

## BUILDING AND LOAN ASSOCIATIONS IN THE UNITED STATES.

Secretary H. F. Cellarius, of the United States League of Local Building and Loan Associations, has furnished this office with a comparative statement relative to the building and loan associations for the years 1907-8 and 1908-9. From the report received it is noted that on January 1, 1909, there were in operation 5,629 of these associations, with total membership of 1,959,579, and assets of \$796,-998,819. Compared with the prior year there has been an increase in membership of 82,612, and a net increase in assets of \$51,005,421.

As will be noted by reference to the accompanying statement, 1,015 of the associations are located in States not named, due doubtless to the fact that the number in each of the States not listed is comparatively small.

## SCHOOL SAVINGS BANKS.

Statistics relating to school savings banks compiled by Mr. J. H. Thiry, who in 1885 introduced the system at Long Island City, N. Y., have been submitted for the year ended January 1, 1909.

It appears that school savings banks are in operation in 114 cities of 25 States, that there are 6,765 banks in 1,163 schools, the number of registered pupils being 554,716 and the number of depositors 186,828. From 1885 to January 1, 1909, deposits of these banks aggregated \$4,609,431.35, withdrawals \$3,864,526.62, leaving a balance of \$744,904.73. The average credit per depositor is shown to be \$3.98. The deposit balance on January 1, 1908, was \$759,646.09, or \$14,741.36 greater than 1909. The number of depositors in 1908 was 178,817 and the average deposit \$4.25. It should be stated that statistics in question include returns from school savings banks in Canada and in South and West Australia.

## BANKS AND BANKING IN THE ISLAND POSSESSIONS.

## PHILIPPINES.

Banking in the Philippine Islands is conducted by the following-named institutions: Banco Espanol Filipino, at Manila, with branch at Iloilo; Chartered Bank of India, Australia, and China, with branch at Cebu; Hongkong and Shanghai Banking Corporation, at Manila, with branch at Iloilo; International Banking Corporation, at Manila, with branch at Cebu; Monte de Piedad and Savings Bank of Manila; Philippine Postal Savings Bank.

In addition to the foregoing there is in operation the Manila Building and Loan Association and the Agricultural Bank. Returns from the latter, however, have not been received.

The following is a statement of the principal items of assets and liabilities of the banks, exclusive of the Agricultural Bank and the Manila Building and Loan Association.

## ASSETS.

Loans.....	\$10, 123, 301. 00
Due from other banks, branches, agents, correspondents, including domestic and foreign bills of exchange.....	4, 663, 480. 00
Cash in bank.....	3, 464, 148. 00
Aggregate assets.....	21, 024, 801. 23

## LIABILITIES.

Capital stock.....	1, 533, 164. 36
Surplus and profits.....	830, 295. 00
Bank notes outstanding (Banco Espanol Filipino).....	899, 383. 25
Due to other banks, branches, agents, and correspondents.....	3, 407, 206. 00
Deposits.....	11, 974, 528. 00

Comparing the foregoing with the returns for the corresponding period in 1908, there is shown to have been an increase in assets of \$1,321,784.

The Philippine postal savings bank system had on June 30, 1909, 251 banks, with 8,782 accounts, an increase during the year of 3,393 accounts and \$208,482 in deposits. The assets and liabilities of the postal banks on June 30 were as follows:

## ASSETS.

Loans.....	\$575, 262
Bonds.....	124, 757
Cash.....	33, 306
Total assets.....	733, 325

## LIABILITIES.

Deposits.....	724, 479
Stamp fund.....	766
Interest fund.....	8, 080

The number of depositors of each nationality on May 31, 1909, was as follows:

Americans.....	3, 351
Filipinos.....	4, 771
Europeans.....	213
Asiatics.....	181

In addition there were 56 accounts represented by deposits by societies.

The act providing for the establishment of the Agricultural Bank went into effect on July 1, 1908, the legislature under date of June 13, 1908, having appropriated 1,000,000 pesos as the capital. The Chief of the Insular Division of the War Department advises that no information has been received so far in relation to the extent of the transactions of this bank.

The Manila Building and Loan Association, incorporated July 12, 1904, had a membership on July 30, 1909, of 596, the number of shares in force being 5,240. Payments on the shares are at the rate of \$1 per month. The assets and liabilities of the association, as shown by the June statement, are as follows:

## ASSETS.

Loans on real estate.....	\$98,342
Loans on stock pledged.....	13,505
Real estate.....	2,850
Furniture, etc.....	422
Total assets.....	115,120

## LIABILITIES.

Installments paid.....	73,848
Paid-up stock.....	8,060
Profits, divided and undivided.....	10,711
All other liabilities.....	22,500

## HAWAII.

Of the 10 banks other than the 4 national banks operating in the Territory of Hawaii only 6 submitted reports as of April 28, 1909. Statements from those not reporting were compiled from bankers' directories in order to show the approximate banking resources of the Territory, the statistics being necessarily incomplete as to details. The capital of the 10 banks other than national as compiled aggregates \$2,455,077, individual deposits, \$8,982,731; resources, \$12,746,860. Returns received from Hawaii in 1908 were so meager that a comparative statement will be of no value.

A consolidation of the reports from 4 national and 10 other banks in Hawaii shows the principal items of resources and liabilities to be as follows:

Loans.....	\$8,593,913
Bonds, stocks, etc.....	2,840,955
Cash.....	2,509,186
Capital paid in.....	3,065,077
Individual deposits.....	9,627,597
United States deposits.....	331,455
Aggregate resources.....	15,118,565

## PORTO RICO.

Through the courtesy of Mr. B. R. Dix, acting treasurer of Porto Rico, this office has been placed in possession of a statement showing the condition of the banks in Porto Rico as of June 30, 1909. There are in the island nine banking institutions, one of which is a national bank. The authorized capital stock of these banks is

\$1,453,530, of which \$638,000 has been paid in. The statement prepared includes the Banco de Puerto Rico, Banco Territorial y Agrícola, American Colonial Bank of Porto Rico, Credito y Ahorro Ponceño, Caja de Economías y Prestamos San German, Banco Popular San Juan, Union Bank of Halifax, Royal Bank of Canada, and First National Bank of Porto Rico.

The principal items of resources and liabilities of the 9 reporting banks are as follows:

Loans.....	\$5, 111, 390
Bonds and stocks.....	2, 130, 473
Cash.....	2, 280, 727
Paid-in capital stock.....	878, 315
Surplus.....	563, 233
Deposits.....	7, 860, 658
Notes issued.....	600, 000
Aggregate resources.....	13, 075, 715

The amount of savings deposits in banking institutions of Porto Rico, and rates of interest paid thereon, as of June 30, 1909, are shown in the following table:

Banking institution.	Rate of interest.	Savings deposits.
	<i>Per cent.</i>	
American Colonial Bank.....	3	\$58, 498. 58
Banco Territorial y Agrícola.....	6	145, 383. 29
Royal Bank of Canada.....	3	42, 872. 86
Union Bank of Halifax.....	4	114, 023. 39
Credito y Ahorro Ponceño.....	4	138, 220. 99
Caja de Economías y Prestamos, San German.....	6	89, 132. 57
Banco Popular de Economías y Prestamos, San Juan.....	6	121, 937. 95

#### FOREIGN BANKS OF ISSUE.

Elsewhere in this report appear statistics and general information relative to national-bank issues and the stock of money in the United States. In connection therewith and in view of the general interest attaching to the subject of bank circulation, the following table has been compiled from statements published in the London Economist during the past year with reference to the principal items of resources and liabilities of the leading foreign banks of issue.

The Bank of France being the sole bank of issue in that country, the volume of its outstanding circulation is largely in excess of that of any other of the banks listed. On November 5, 1908, the outstanding notes of this bank amounted to £201,100,000, and by January 7, 1909, increased to £209,200,000. From that date there was a steady decline to £204,800,000 on May 6, an increase on June 3 to £207,500,000, and a decline to £201,000,000 on September 2. On the 7th of the following month the issues had increased to £207,100,000.

The fluctuations in the issues of the Imperial Bank of Germany are more marked, the low points £70,100,000 and £72,400,000 being reached on March 8 and June 9, respectively. The greatest amounts outstanding, as shown by the statements in question were £88,600,000 on January 7, £85,000,000 on April 7, £94,300,000 on July 2, and £92,900,000 on October 7.

The outstanding issues of the Bank of England varied but slightly during the year, the minimum amount, on November 5, 1908, being £29,000,000, and the maximum, £30,200,000, on July 8 and August 5. The outstanding issues of the Bank of Russia fluctuated from a minimum of £105,600,000 on May 6, 1909, to a maximum of £126,700,000 on October 6, and the issues of the Austro-Hungarian Bank, from a minimum of £78,100,000 on March 6, to a maximum of £85,200,000 on October 15. The fluctuations of the outstanding notes of the Netherlands Bank have been from a minimum of £22,400,000, March 6, to a maximum of £24,300,000 on May 8. During the fall and winter months the notes issued by the Bank of Italy reached their maximum, £57,200,000 on August 10, and dropped to a minimum of £51,000,000 on June 10. The fluctuations in the issues of the banks of Norway, Denmark, Switzerland, Spain, and Belgium are shown to have been very limited in amount during the year in question. The issues of the Bank of Sweden fluctuated somewhat and ranged during the year from a minimum of £9,500,000 on February 6 to a maximum of £11,200,000 on October 2.

## SAVINGS BANKS OF THE WORLD.

To the Bureau of Statistics, Department of Commerce and Labor, the Comptroller is indebted for the data in the accompanying tables representing the latest available information relating to all foreign savings banks, whether under private, municipal, or government control. As will be noted, the earliest returns in the first table are for December 31, 1906, and the latest for June 30, 1909. The sta-

tistics in question cover returns from 19 countries and 17 dependencies, the aggregate population of which is stated at 816,112,498, the number of depositors listed being 95,524,331, the deposits \$9,710,936,635, and the average deposit account \$101.66. The largest number of depositors and the greatest amount of deposits are in Germany, namely, 18,658,460 and \$3,191,882,000, respectively. Six of the countries in the list, namely, Germany, Japan, France, United Kingdom, Russia, and Austria, have over 70 per cent of the number of depositors and approximately 72 per cent of the deposits.

The second table is a chronological history of postal savings banks, covering generally the period of the last decade; and from this table a third has been compiled, showing the growth in the number of depositors and the amount of deposits from 1897, or the earliest available date, to 1907, except as indicated. During this period the number of depositors in postal savings banks has increased approximately 100 per cent, or from 20,182,887 to 40,320,303; the increase in deposits is approximately 75 per cent, or from \$1,138,441,944 to \$1,989,299,815, or an increase of \$851,000,000. The average deposit account has fallen from \$56.41 to \$49.33. While the number of depositors in postal savings banks is 42 per cent of the number in all foreign savings banks, the deposits are only slightly in excess of 20 per cent. In the countries and dependencies having postal savings banks, the United Kingdom leads in the number of depositors and amount of deposits—that is, 11,018,251 and \$781,794,533, respectively. In Japan there are 8,013,193 depositors; in Italy, 5,108,802; France, 5,034,998; Belgium, 2,106,237; Austria, 2,064,403; Russia, 1,788,990; Netherlands, 1,401,670; and British India, 1,262,763. Canadian postal savings banks have but 155,895 depositors, but their deposits amount to \$45,190,484, making the average deposit account \$289.88, by far the largest average account in postal savings banks in any country.

With statistics relating to foreign savings banks, corresponding information from savings banks in the United States has been incorporated. The number of depositors in savings banks in the United States on April 28, 1909, was 8,831,863; deposits to their credit \$3,713,405,709, and the average account \$420.45. The estimated population of the United States on May 1, 1909, was 88,687,000, which gives the average deposit in savings banks per capita of population at \$41.87. The number of depositors in savings banks in this country is approximately 8.5 per cent of the number in savings banks in the world, the proportion of deposits being 27.7 per cent. From the accompanying table it will also be noted that the combined savings-bank deposits in the United Kingdom, Germany, France, Austria, and the United States represent 75 per cent of the amount of deposits in the savings banks of the world.

Tables relating to all foreign savings banks and to postal savings banks, separately, are submitted herewith.

<sup>a</sup> The figures of population are for the period to which the statistics of savings banks relate.

<sup>b</sup> Figures for private savings banks relate to end of calendar year 1906; figures for postal savings banks relate to end of 1907. Inclusive of deposits in so-called "cheque departments" of Austrian postal savings banks.

<sup>c</sup> Data for the state-controlled "Caisse Generale d'Epargne" including savings deposits with post-offices. In addition reports are given for three municipal and five private savings banks. On Dec. 31, 1907, the former had 16,554 depositors, credited with \$1,895,310 of deposits, and the latter 27,261 depositors, with \$7,992,165 of deposits.

<sup>d</sup> Exclusive of 1,597 deposits, of \$147,354, in savings banks in Faroe Islands. Includes data for savings departments of ordinary banks, which included 141,097 accounts credited with \$33,991,526 on Mar. 31, 1907.

<sup>e</sup> At the end of the fiscal year 1907-8 the total savings bank deposits in Germany had increased to \$3,305,606,000. This amount includes \$2,170,680,018 to the credit of 11,484,139 depositors in the Prussian savings banks.

<sup>f</sup> Exclusive of data for the "Società Ordinaria di credito" and "Società Cooperativa di credito," which held savings deposits to the amount of \$137,013,066 under date of Dec. 31, 1906.

<sup>g</sup> Figures for private savings banks relate to the end of the calendar year 1906; figures for the postal savings banks relate to Mar. 31, 1908.

<sup>h</sup> Figures for private savings banks relate to the end of the calendar year 1906; figures for the postal savings banks relate to Mar. 31, 1907.

<sup>i</sup> Figures for private savings banks relate to the end of the calendar year 1906; figures for the postal savings banks relate to the end of 1907.

<sup>j</sup> Figures for the "Cassa de economie" only.

<sup>k</sup> The "peseta" has been converted at the rate of 17.14 cents. Data taken from "España Economica y Financiera," Sept. 25, 1909.

<sup>l</sup> Preliminary statement furnished by the Swiss Federal Statistical Bureau under date of Sept. 30, 1909, for 372 savings banks.

<sup>m</sup> Figures for trustee savings banks relate to the year ending Nov. 20; figures for postal savings banks, to Dec. 31. Exclusive of government stock held for depositors, which at the end of the year amounted to £20,628,985 in the post-office savings banks, and to £2,455,962 in the trustees' savings banks.

<sup>n</sup> Exclusive of population of the Feudatory States.

## BANK DEPOSITORS GUARANTY LAWS.

Following the action of Oklahoma, the legislatures of the States of Kansas, Nebraska, and Texas enacted laws providing for the guaranty of deposits in banks. Subsequent to the passage of the Oklahoma law the question was raised as to the right of national banks in that State to take advantage of its provisions, and the opinion of the Attorney-General of the United States to the effect that they could not lawfully do so, rendered under date of July 28, 1908, was published in full in the report of the Comptroller of the Currency for the year 1908. Practically the same questions were presented in connection with the Kansas bank-deposit law, and under date of April 6, 1909, Attorney-General Wickersham, following citations from the act in question and decisions of the courts in pertinent cases, concluded as follows:

Answering specifically the question which is submitted for my consideration, viz, "Have national banks in the State of Kansas the right, under section 13 of the act referred to, to participate in the assessments and benefits of the bank depositors'

guaranty fund of the State of Kansas, upon the same terms and conditions as apply to State banks?" I would respectfully state that, in my opinion, they have not such right, and only an act of Congress can confer such powers upon national banks.

The question as to the constitutionality of the Oklahoma guaranty law has been appealed to the Supreme Court of the United States.

In the circuit court of the United States for the district of Nebraska, in the case of the First State Bank of Holstein et al. v. Ashton C. Shallenberger, Governor of the State et al., decree was rendered on October 16, enjoining the enforcement of the Nebraska bank depositors' guaranty act. The court held that—

The Nebraska act of March 25, 1909 (Laws Nebr., 1909, ch. 10, p. 66), which prohibits individuals from engaging in the banking business unless they do so through the agency of a corporation, and which also conditions the right to engage in that business in that form upon the making of enforced contributions from time to time to a depositors' guaranty fund to be employed in the payment of the claims of depositors of any bank which shall become insolvent, is in conflict with section 1 of the fourteenth amendment of the Constitution of the United States, which provides:

"No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property without due process of law," and is in conflict with section 3 of article 1 of the constitution of Nebraska, which declares:

"No person shall be deprived of life, liberty, or property without due process of law," and therefore is void.

The provisions of the Nebraska act of March 25, 1909, *supra*, which prohibits individuals from engaging in the banking business, unless they do so through the agency of a corporation, and also condition the right to engage in that business in that form upon the making of enforced contribution from time to time to a depositors' guaranty fund to be employed in the payment of the claims of depositors of any bank which shall become insolvent, were the inducement to the passage of that act, and as those provisions, so coupled together, are void, the entire act is thereby rendered invalid.

Subsequent to the promulgation of the opinion of the Attorney-General, holding that national banks have not the right to participate in the assessments and benefits authorized by state laws providing for the guaranty of depositors, the question was raised as to the power of a national bank to enter into a contract with an insurance company guaranteeing the solvency of the bank. The question was referred to the Attorney-General, and under date of May 7, 1909, the following opinion was rendered:

SIR: Replying to yours of the 29th ultimo, in which, at the request of the Comptroller of the Currency, you ask for an opinion as to the power of a national bank to enter into a contract with an insurance company guaranteeing the solvency of the bank, and transmitting to me a form of policy which is proposed to be issued by an insurance company proposed to be organized, I beg to say that, as a general principle, I have no doubt that it is entirely within the powers of a national bank to contract for the insurance of its assets against loss. The form of the proposed policy submitted in your letter is somewhat peculiar. It purports to insure to the bank the payment of—"a sum of money sufficient to indemnify the bank for any and all losses suffered by it by reason of theft, embezzlement, losses in realizing upon loans and investments, shrinkage in value of assets or otherwise, in an amount equal to but not exceeding the net excess of its obligations, other than by reason of the stock of the bank, over the total aggregate value of the assets of the bank thus reduced by such losses; provided that there shall be included in the assets of the bank all net sums which have been realized by reason of the additional liability of the stockholders of the bank."

Such contract is, in effect, an agreement to pay to the bank any deficiency in its assets upon ultimate realization necessary to enable it to pay all of its liabilities of every kind. The policy is to run for a period of three months, but to be renewable thereafter for periods of three months each with the consent of the insurance company, and at such premiums as the insurance company may fix at least one month before the expiration of the then current term of the insurance, the premium in every case to be a percentage of the average indebtedness of the bank during the period covered by such renewal, with the provision that if such rate shall be in excess of one-sixteenth

of 1 per cent upon such average indebtedness, then and in such event the insurance company shall be liable to account to the bank for the application of such premium paid by the bank in excess of one-sixteenth of 1 per cent—

“which excess shall be applicable only to the payment of actual losses incurred by the company by reason of claims under this and similar policies, and any excess over such extra claims shall be divided pro rata among the banks paying such extra rate of premium as a participation in the profits during which period such extra rate of premium has been paid.”

It is somewhat uncertain precisely what this paragraph means and what its effect may be. It seems to me to be objectionable as committing the bank to a profit-sharing feature, which might be contended to entail a corresponding liability for losses; and, as the attorney for the promoters of the proposed insurance company informs me that this is not regarded as an essential part of the plan, I should advise that it had better be eliminated from the policy.

Another provision contained in the policy subjects the bank to a periodical examination by the examiners of the insurance company without notice and at such times as the company may elect, one of such examinations to be within each period of six months covered by the policy and all renewals thereof. This period is probably inadvertently placed at six months, as the policy is proposed to be written for periods of three months only. Aside from that, I very much question the legality of this clause, or at least its enforceability. Section 5241 of the Revised Statutes provides that—

“No association shall be subject to any visitatorial powers other than such as are authorized by this title, or are vested in the courts of justice.”

While this statute does not prohibit the bank from permitting an examination of its books, in my opinion it does operate to prohibit it from obligating itself to permit such examination; and if the covenant to insure can be considered as in any respect dependent upon this agreement to permit examinations, it might be vitiated by the unlawful provision. I should advise that the clause be reframed so as to make it clear that the agreement to insure is not dependent upon the failure to permit the examination, although it might be stipulated that in case, at any time, the examiner of the company should not be allowed access to the books of the bank for the purpose of making an examination the company should have the option, upon reasonable notice, to terminate the contract.

In my opinion, therefore, it is a matter for the discretion of the directors and officers of a bank to determine whether or not they will enter into any such contract in any given instance, this discretion to be exercised in view of the solvency and general financial condition of the company making the insurance and the reasonableness of the rate of premium; and the form of the policy being modified to conform to the foregoing suggestions, I see no legal reason why a bank may not enter into it.

Respectfully,

GEORGE W. WICKERSHAM,  
*Attorney-General.*

THE SECRETARY OF THE TREASURY.

*a* Restored to solvency and resumed business.

The capital of the 14 banks placed in charge of receivers during the year aggregated \$1,093,500. Five of the banks in question, with aggregate capital of \$325,000, were placed in solvent condition and authorized to resume business. The assets of the 9 insolvent banks at date of failure were \$2,899,023; claims proved, \$1,693,472, on which dividends were paid to the amount of \$477,813. Two of the banks in the list paid their creditors in full, both principal and interest; 1 paid 50 per cent, 1, 25 per cent, and 5 no dividends so far. The causes of failures were as follows: Three as the result of defalcation by officers; 2, fraudulent management and injudicious banking; 1, fraudulent management, excessive loans to officers, directors, and others; 2, injudicious banking, and 1 wrecked by the cashier.

Seventeen receiverships were closed during the year, the capital of the banks at date of failure being \$3,688,500, and their assets \$21,178,991. Collections from assets and shareholders were \$10,998,520. The claims proved against these trusts aggregated \$10,747,070, on which dividends were paid to the amount of \$8,128,175, or 75.71 per cent. Liabilities settled by offsets, the payment of loans, etc., aggregated \$4,814,055. Including dividends, offsets, and loans paid, creditors received on an average 82.29 per cent. Assets to the nominal value of \$1,431,307 were returned to shareholders. The expenses of administration of these 17 trusts—that is, receivers' salaries, legal expenses, etc.—were \$390,846.

From the date of the first failure in 1865 to October 31, 1909, receivers were appointed for 508 national banking associations, including 24 restored to solvency, of which 4 failed for the second time, the total number of receiverships representing 5.3 per cent of the number of national banks chartered during the existence of the system. It should be stated, however, that with the elimination of receiverships terminated as result of restorations to solvency the net loss to the system by insolvency was only 484 banks, or 5.04 per cent.

The affairs of 416 insolvent banks have been fully liquidated. The nominal value of the assets of these banks was \$283,611,827, from which \$139,435,344 was collected and \$22,646,178 applied as offsets. The nominal value of assets returned to shareholders was \$13,476,481, and of the remaining assets \$3,683,994. The amount of losses on assets compounded, etc., were \$104,369,830. The assessment on shareholders, amounting to \$39,606,640, produced \$18,884,876, making aggregate collections from shareholders and assets \$158,320,220. These collections were disposed of as follows: On claims proved, amounting to \$147,363,378, dividends were paid to the amount of \$111,563,299 or 75.71 per cent. Including offsets allowed, loans paid and other disbursements, with dividends, creditors received on the average 82.29 per cent. Receivers' salaries and other expenses of these trusts amounted to \$7,459,560, to which should be added legal expenses of \$4,245,250, the aggregate of which is equivalent to 4.13 per cent of the nominal value of the assets and 7.39 per cent of the aggregate collections. There was returned to the shareholders in cash \$2,855,251, the balance held by the Comptroller being \$27,680.

Circulating notes of these banks outstanding at date of failure aggregated \$21,228,613, secured by bonds of the par value of \$23,917,150, from which was realized \$24,811,757, or \$3,583,144 in excess of the circulation for which the bonds were pledged, and which amount was added to collections from other assets from which dividends were paid. The assessment on shareholders was approximately 60 per cent of their holdings, on which only about one-half was paid. In other words, the assessment on capital stock produced nearly 28 per cent of the par value of the aggregate capital of these insolvent associations.

At the close of the year 68 insolvent national banks were in charge of receivers, the nominal value of their assets being \$54,114 576. So far collections from assets and shareholders have been \$29,634,651. Claims proved are shown at \$31,917,575, on which dividends have been paid to the amount of \$20,200,122, or 63.29 per cent. Including with dividends paid, offsets allowed, loans paid, and other disbursements, creditors have received on an average 72.33 per cent. It is presumed that upon final liquidation these 68 trusts will return to creditors dividends equal at least to those paid by the trusts which have been finally closed.

In the following table is summarized the foregoing information, which is based upon reports of receivers of insolvent national banks:

**DIGEST OF NATIONAL-BANK DECISIONS.**

Supplement containing digest of national bank decisions reported during the current year follows the text of this report.

**AMENDMENTS TO THE NATIONAL-BANK ACT.**

Section 333 of the Revised Statutes relating to the annual report to be made to Congress by the Comptroller of the Currency, provides in part for the submission of amendments to the laws relative to banking, by which the system may be improved and the security of the holders of its notes and other creditors may be increased.

No amendments to the national-bank act have been effected since May 30, 1908, and the only legislation subsequent to that date affecting national banks is that contained in the tariff act of 1909, wherein provision is made for a corporation tax.

The act of May 30, 1908, provides in part for the establishment of the National Monetary Commission, and at the December, 1908, meeting of the commission suggestions were submitted for consideration in connection with proposed amendments to the banking and currency laws.

## DIGEST OF NATIONAL-BANK DECISIONS.

[The following decisions, being cases reported in the Reporters up to and including 214 U. S. Reports and 171 Federal Reporter, have not been previously printed in the reports of the Comptroller of the Currency.]

### CAPITAL STOCK.

#### RESTORATION OF IMPAIRED CAPITAL.

*Assessments under Revised Statutes, section 5205.*

(U. S. C. C., 1898.) An assessment to restore impaired capital was held invalid, as it was made by the directors and not by a majority of the stockholders themselves. (*Hulitt v. Bell et al.*, 85 Fed. Rep., 98.)

### CHECKS.

*Overdrafts—Directors have no power to sanction.*

(Mo. Appeals, 1876.) The mere fact that the directors of a bank knew of, and sanctioned, overdrafts, will not release from liability the sureties of a teller who causes a loss to the bank by permitting overdrafts. The directors of a bank have no power to sanction overdrafts. (*Market Street Bank v. Stumpe*, 2 Mo. Appeals Repts., 543.)

### CIRCULATION.

*Application of exemption in section 3411, Revised Statutes.*

(U. S. Sup. Ct., 1909.) The provisions in section 3411, Revised Statutes, exempting banks from taxation on circulation, does not relate to national banks but to state banks only. (*Merchants Nat. Bank v. United States*, 214 U. S. R., 33.)

*Application of sections 3411, 5214, Revised Statutes—Exemption from taxation.*

(U. S. Sup. Ct., 1909.) One of the public policies of the national-bank act was to secure the public credit and encourage the issue of notes to circulate as currency founded upon United States bonds, and section 3411 will not be construed as intending to exempt those national banks that allowed their circulation to fall below 5 per cent of their capital from the taxation provided by section 5214 to create a fund to bear the burden common to all national banks for engraving and printing the notes. (*Merchants' Nat. Bank v. United States*, 214 U. S. R., 33.)

*Right of United States to recover from bank money obtained on forged pension checks.*

(U. S. Sup. Ct., 1909.) The United States can recover from a bank presenting pension checks to, and receiving the money therefor, from a subtreasury, where the names of the payees have been forged; and the right to recover is not conditioned upon either demand or the giving of notice of the discovery of facts which by the operation of the legal warranty were presumed within the knowledge of the bank. (*United States v. Nat. Exchange Bank*, 214 U. S. R., 302.)

### COLLATERAL SECURITIES.

*Pledges—Collateral—Conservation—Duty of pledgee.*

(U. S. C. C., 1909.) Where a trust company received certain corporate bonds as collateral security for complainant's liability on an underwriting agreement, and the corporation became a bankrupt, it was the trust company's duty to employ reasonable diligence to conserve the collateral and collect thereon all moneys which it was reasonably possible for it to secure through a prompt presentation of the bonds in the bankruptcy proceedings. (*Warburton v. Trust Co. of America*, 169 Fed. Rep., 974.)

*Pledges—Choses in action—Transfer as collateral—Rights of pledgee.*

(U. S. C. C., 1909.) A bond, or any chose in action, which is transferred as collateral security, is not in the nature of or subject to the incidents of a pawn or pledge, but is under the dominion of the creditor, to make his claim out of it. (Ib.)

*Judgment—Res judicata—Questions determined.*

(U. S. C. C., 1909.) Complainant subscribed to an underwriting agreement for the bonds of a corporation in the sum of \$15,000. The bonds were delivered to defendant trust company, and, the corporation having become a bankrupt, the trust company surrendered the bonds and released the lien of the mortgage on receiving 8 per cent of their face value. In an action by the trust company on the underwriting agreement, complainant denied liability thereon, and the case was tried on that theory, though it was also alleged that the bonds which the trust company had held as collateral to defendant's subscription had been converted, and the amount realized thereon stated. *Held*, That a judgment establishing complainant's liability on the agreement was not res judicata of the question whether the trust company had exercised reasonable diligence in conserving the collateral and collecting all that was possible therefrom. (Ib.)

*Judgment—Res judicata.*

(U. S. C. C., 1909.) Where defendant trust company received the bonds of a corporation as collateral to an underwriting agreement, and later surrendered the bonds in bankruptcy proceedings against the corporation for 8 per cent of their face value, complainant, in a suit to restrain the collection of a judgment recovered by the trust company against him on his underwriting subscription, was entitled to a determination of the question whether the trust company had used reasonable diligence in conserving and collecting the collateral. (Ib.)

## DEPOSITS.

*Liability of depositor.—Deposit by partner for benefit of firm.*

(Ala. Sup., 1906.) The effect of a transaction whereby a member of a firm deposited money in a bank for the firm and took a note from the firm for the money held to be a loan from him to the firm on their note, the money in the bank to be turned over to him when they deposited collateral for his benefit, and so that he held the double obligation of the firm for the money, if the firm got it from the bank, and the obligation of the bank not to let the firm have it without collaterals. (*First Nat. Bank v. Henry*, 49 So., Rep., 97.)

(Ala. Sup., 1906.) A bank held by its contract to have agreed in substance to protect a deposit for the benefit of the depositor by taking from his firm security to cover its amount, and to hold at all times either that amount of security or so much as the bank let the firm have, and to be bound thereby unless released. (Ib.)

*What constitutes a special deposit.*

(Ala. Sup., 1906.) A deposit with a bank is special when it is a deposit like stocks, bonds, and other securities, and sometimes money, to be specially kept and returned to the owner, or money deposited for a fixed period of time or on unusual conditions, which is mingled in the general funds like a general deposit and repaid therefrom, or money which is to be applied by the bank at the depositors request for specific purposes. (Ib.)

*Failure to secure debt of third person to depositor—Extent of liability—Evidence.*

(Ala. Sup., 1906.) The measure of damages which the holder of a bill or note is entitled to recover of a bank guilty of negligence or default as a collecting agent is the actual loss suffered, which is prima facie the amount of the bill or note placed in its hands; but evidence is admissible to reduce it to a nominal sum. (Ib.)

*Negligence or default of collecting agent—Measure of damages.*

(Ala. Sup., 1906.) In an action against a bank for failure to take collateral security for an indebtedness of a third person to plaintiff. *Held*, that it could not avail the bank, that there had been a shrinkage in the value of cotton, unless it took warehouse receipts for cotton and bills of lading as agreed. (Ib.)

*Plea of ultra vires.*

(Ala. Sup., 1906.) A national bank held not to escape liability to a depositor by pleading that it made with him an ultra vires agreement. (Ib.)

*Action by depositor for deposit—Pleading.*

(U. S. C. C. A., 1909.) A complaint alleging that defendants were conducting a banking business, that plaintiff deposited a stated sum of money with them to his credit on open account and payable to him or his order on demand, that payment of his check for the amount when presented was refused, and that no part thereof has been repaid, states a cause of action for its recovery; the latter allegation covering every manner of repayment to plaintiff. (*Levy et al v. Larson*, 167 Fed. Rep., 110.)

*"Lien" of bank on deposits—Notes of depositor.*

(U. S. D. C., 1908.) A bank holding notes of a depositor which are due has the right to charge the same to the depositor's account. Such right is not strictly a lien, within the meaning of the bankruptcy law, but a right of set-off; but it can be exercised only as to notes which are due. (*Irish v. Citizens Trust Co. of Utica*, N. Y., 163 Fed. Rep., 880.)

## DEPOSITS.

## STATE LAWS REQUIRING BANKS TO CONTRIBUTE TO DEPOSITOR'S GUARANTY FUND.

*Constitutional law—Due process of law—Banking—Restricting business to corporations—Guaranty fund.*

(U. S. C. C., 1909.) The Nebraska act of March 25, 1909 (laws Nebr., 1909, ch. 10, p. 66), which prohibits individuals from engaging in the banking business, unless they do so through the agency of a corporation, and which also conditions the right to engage in that business in that form upon the making of enforced contributions from time to time to a depositor's guaranty fund to be employed in the payment of the claims of depositors of any bank which shall become insolvent, is in conflict with section 1 of the Fourteenth amendment to the Constitution of the United States which provides:

"No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty or property without due process of law," and is in conflict with section 3 of article 1 of the constitution of Nebraska which declares:

"No person shall be deprived of life, liberty or property without due process of law," and therefore is void. (*The First State Bank of Holstein, Nebr., et al., plaintiffs, v. Ashton C. Shallenberger, governor of the State of Nebraska, et al., defendants.* Memorandum of opinion filed Oct. 16, 1909. Case not yet reported.)

*Void provision, when inducement to passage of act, renders entire act invalid.*

(U. S. C. C., 1909.) The provisions of the Nebraska act of March 25, 1909, *supra*, which prohibits individuals from engaging in the banking business, unless they do so through the agency of a corporation, and also condition the right to engage in that business in that form upon the making of enforced contributions from time to time to a depositors' guaranty fund to be employed in the payment of the claims of depositors of any bank which shall become insolvent, were the inducement to the passage of that act, and as those provisions, so coupled together, are void the entire act is thereby rendered invalid. (Ib.)

## FORGED OR ALTERED PAPER.

*Alteration of checks—Liability of drawer.*

(N. Y. Appeals, 1902.) While the drawer of a check may be liable where he draws the instrument in such an incomplete state as to facilitate or invite fraudulent alteration, he is not bound so to prepare the check that nobody else can successfully tamper with it. (*Critten et al. v. Chemical National Bank*, 171 N. Y. R., 219.)

*Depositor's duty to verify returned vouchers.*

(N. Y. Appeals, 1902.) A bank depositor owes to the bank the duty of exercising reasonable care to verify returned vouchers by the record kept by him of the checks he has issued, for the purpose of detecting forgeries or alterations. (Ib.)

*Depositor's liability for negligence in examination of voucher.*

(N. Y. Appeals, 1902.) A depositor by neglecting his duty in this respect, or by failing to discover and notify the bank of forgeries, does not, however, adopt raised checks as genuine and ratify their payment or estop himself from asserting that they are forgeries—his liability is limited to the damages sustained by the bank in consequence of such neglect. (Ib.)

*Payment of raised checks before account is balanced.*

(N. Y. Appeals, 1902.) A bank is not relieved from liability for raised checks, which it had paid before the account was balanced, by the failure of the depositor to subsequently discover the alterations, unless thereby the bank has lost an opportunity to obtain restitution. (Ib.)

*When bank relieved from payment after account is balanced.*

(N. Y. Appeals, 1902.) A bank is, however, relieved from responsibility for raised checks which it paid after the account was balanced, by the negligence of the depositor in the examination of the returned vouchers and comparison with stubs of his check book which would have disclosed the alterations and prevented the subsequent frauds, in the absence of negligence on the part of the bank in paying the checks. (Ib.)

*Responsibility of depositor for negligence of clerk.*

(N. Y. Appeals, 1902.) A bank depositor is chargeable with the knowledge of the fraudulent alteration of checks possessed by his clerk to whom he intrusted the examination of the vouchers, and with his negligence or failure in the verification of the accounts, although the clerk is the one who made the alterations, where the comparison of the checks with the stubs in the check book would have disclosed such alterations to an innocent party previously unaware of the forgeries, since in such a case he is responsible for the manner in which the clerk performs his task, although he is the forger. (Ib.)

*Contributory negligence of bank.*

(N. Y. Appeals, 1902.) The negligence of a bank in paying to a clerk of a depositor a check which had plainly been altered by the substitution of the word "cash" for the name of the payee over an erasure and on which the number of dollars was also written over an erasure, without making inquiry as to the reason or authority for the alteration, not only places upon the bank the responsibility for the loss thereby sustained, but contributes to the successful continuance of a series of similar forgeries by the clerk so as to defeat the liability of the depositor for loss to the bank from the payment of altered checks subsequent thereto, on the ground of his negligence in respect to the examination of returned vouchers. (Ib.)

*Pleading—Action on contract—Effect of allegation of negligence.*

(N. Y. Appeals, 1902.) An action on contract by a bank depositor for the amount of altered checks over and above the sums for which they were originally drawn is not changed to an action in tort by an allegation of contributory negligence in the reply, used only to defeat the defense of negligence on the part of the depositor raised by the answer. (Ib.)

*Bills and notes—Forged indorsement of check—Liability of bank on guaranty of indorsement.*

(U. S. C. C., 1908.) Plaintiff's assignor, a bank, discounted for one M. a note made by a third person, payable to his own order and indorsed by him, giving M. a check for the proceeds on itself, payable to the order of the maker of the note. M. indorsed the check with the payee's name, by himself, and delivered it to defendant bank, which also indorsed it, expressly guaranteeing the indorsements, and the discounting bank, relying on such indorsement, paid it. In fact M. had no authority to indorse the check, and did so without the knowledge or consent of the payee; and he also discounted the note without authority and in violation of his agreement with the maker. *Held*, That since the discounting bank, having paid its check on a forged indorsement, did not become a bona fide purchaser for value of the note, and could not, therefore, enforce it against the maker, plaintiff was entitled to recover from defendant upon its indorsement of the check. (Boardman v. Hanna, 164 Fed. Rep., 527.)

*Payment of forged checks—Negligence of bank—Estoppel of depositor.*

(U. S. C. C. A., 1909.) Failure of a bank depositor to examine his account and give the bank prompt notice of his objections to the payment of forged checks is no defense to the depositor's right to recover the money so paid from the bank, if the bank's officers, before paying the checks, by the exercise of reasonable care could have detected the forgeries. (New York Produce Exchange Bank v. Houston et al., 169 Fed. Rep., 785.)

*Forged checks—Payment—Rights of depositor—Estoppel.*

Where a bank was negligent in paying certain forged checks, the depositor would not be estopped by his own negligence from claiming the amount so paid, unless such negligence was directly connected with the forgeries. (Ib.)

## GUARANTY.

*Unauthorized indorsement of check—Liability on guaranty of indorsement.*

(U. S. C. C. A., 1909.) Where the indorsement of the payee's name on a check was without authority, but was guaranteed by a bank, and on such guaranty the check was paid, the guarantor is liable for any loss sustained thereby by the paying bank. (*McKinnon v. Boardman*, 170 Fed. Rep., 920.)

## INSOLVENCY AND RECEIVERS.

## ACTIONS BY RECEIVERS.

*Action by receiver on notes—Defenses—Agreement by officers to accept substituted securities.*

(U. S. C. C., 1909.) An agreement by the officers of a bank holding notes of defendant to accept from a corporation satisfactory securities in substitution for such notes constitutes no defense to an action on the notes by a receiver for the bank, where no substitute securities were presented by the corporation prior to the bank's failure. (*Fowler v. Peet*, 170 Fed. Rep., 620.)

*Judgment—Stay of proceedings for enforcement—Equitable set-off.*

(U. S. C. C., 1909.) Where the defendant in an action at law in a federal court by the receiver of a bank claims an equitable set-off, proceedings for collection of the judgment recovered may properly be stayed to give him an opportunity to establish his claim in equity. (*Fowler v. Peet*, 170 Fed. Rep., 620.)

## PREFERENCES IN INSOLVENCY.

*Distribution of assets—Priority.*

(U. S. C. C., 1909.) The fact alone that a deposit of public funds in a bank by a public officer was wrongful, and known to be so by the bank, does not entitle a claim therefor to priority of payment over those of general creditors on the insolvency of the bank. (*Lucas County v. Jamison*, 170 Fed. Rep., 338.)

*Trust funds.*

(U. S. C. C., 1909.) In all cases where an insolvent bank held funds as trustee, to entitle a claim therefor to a preference over those of general creditors in the distribution of the bank's assets it must be shown that such funds have not been dissipated, but that they remain in the estate and can be identified, not by earmarks, but by being traced into the estate and there now found, to its augmentation. (*Lucas County v. Jamison*, 170 Fed. Rep., 338.)

## LOANS.

*Excessive loan—Collection of.*

(U. S. C. C. A., 1909.) That a national bank had loaned to the owners of a dredge on a chattel mortgage more than one-tenth of its capital stock in violation of Revised Statutes, sections 5200, 5239 (U. S. Comp. St. 1901, pp. 3494, 3515), held no objection to the enforcement of the bank's rights under the mortgage. (*The Seattle*, 170 Fed. Rep., 284.)

## NEGOTIABLE PAPER.

*Bills and notes—Rights of indorser—Estoppel of maker by renewal.*

(U. S. C. C., 1908.) The makers of negotiable notes, who, after such notes had been purchased from the payee by a bank, sought and obtained renewals from the bank, giving new notes and taking up the old, are estopped as against the bank to set up the defense of failure of consideration on account of fraudulent representations made by the payee. (*Odber et al. v. Marquet et al.*, 163 Fed. Rep., 892.)

*Bills and notes—Bona fide purchaser—Accommodation paper.*

(U. S. C. C., 1908.) The discount of an accommodation note by a bank and the credit of the proceeds to the account of the payee are not equivalent to parting with value, and the maker may cancel his obligation by proper notice to the purchaser at any time before it has actually parted with the money. (*Queen City Savings Bank and Trust Co. v. Reyburn*, 163 Fed. Rep., 597.)

*Evidence—Books of account—Bank books.*

(U. S. C. C., 1908.) A loose leaf of a bank ledger, containing entries of transactions between the bank and a customer, is competent evidence in its behalf to prove such transactions, when properly proved by testimony of the bank's employees. (*Ib.*)

*Action by indorser—Defenses.*

(U. S. C. C., 1908.) In an action by a bank on accommodation notes which it had discounted for a customer in good faith the fact that by an arrangement between the bank, the customer, and a third party the bank was authorized to charge back paper discounted for the customer and not paid to a fund belonging to the third party. *Held* not available as a defense to the maker of the notes, who was not a party to the arrangement. (Ib.)

## OFFICERS—CIVIL LIABILITY OF.

*Liability of directors of national bank—Suit on behalf of stockholders.*

(U. S. C. C., 1908.) A loss resulting to a national bank from bad loans, which were not repaid, can not be said to have been caused by a violation of law by the directors in failing to keep on hand the legal reserve required by Revised Statutes, section 5191 (U. S. Comp. St. 1901, p. 3486). *Allen v. Luke et al.*, 163 Fed. Rep., 1018.)

*Pleading—Sufficiency of bill.*

(U. S. C. C., 1908.) A bill on behalf of the stockholders of a national bank to charge the directors with liability for losses alleged to have been due to their negligence or misconduct. *Held* to set out the details of the several transactions relied on with sufficient fullness. (Ib.)

(U. S. C. C., 1908.) In such a bill, charging the making of illegal loans by defendants as directors, it is not necessary to allege a formal vote of defendants authorizing or approving such loans. (Ib.)

*Common-law liability of directors.*

(U. S. C. C., 1908.) The provisions of the national banking act defining the duties of the directors of such banks do not relieve them from their common-law liability for a failure to diligently and honestly discharge their trust. (Ib.)

*Abatement and revival—Death of party—Survival of cause of action—Joinder of defendants.*

(U. S. C. C., 1908.) A cause of action against a director of a national bank to recover for money lost to the bank through his negligence or misconduct survives against his executors, and they may be joined as defendants with the surviving directors in an action thereon. (Ib.)

## OFFICERS—CRIMINAL LIABILITY OF.

## FALSE ENTRIES.

*Indictment and information—Sufficiency of accusation—Certainty and particularity.*

(U. S. C. C. A., 1909.) In determining the sufficiency of an indictment, the question is not whether it might have been made more certain, but whether it contains every element of the offense intended to be charged, and sufficiently apprised the defendant of what he must be prepared to meet, and, in case any other proceedings are taken against him for a similar offense, whether the record shows with accuracy to what extent he may plead a former acquittal or conviction. (*Harper v. United States*, 170 Fed. Rep., 385.)

*False entry by officer—Sufficiency of indictment.*

(U. S. C. C. A., 1909.) An indictment under Revised Statutes, section 5209 (U. S. Comp. St. 1901, p. 3497), which charges the defendant as cashier of a national bank with having made a false entry in a report with intent to deceive an officer of the association, need not describe the report with technical accuracy, and an averment of the date when made, and that it was a report made to the Comptroller of the Currency showing the resources and liabilities of the bank on a certain date, is sufficient to authorize the presumption that it was a report made by the association under section 5211. (*Harper v. United States*, 170 Fed. Rep., 385.)

*Offenses by officers—Making false report.*

(U. S. C. C. A., 1909.) Revised Statutes, section 5209 (U. S. Comp. St. 1901, p. 3497), which makes it a criminal offense for any officer or agent of a national bank to make any false entry in any report of the association with intent to deceive any officer of the association, etc., includes a report voluntarily made as well as one required by law, if the false entry was made with the requisite unlawful intent. (*Harper v. United States*, 170 Fed. Rep., 385.)

*Criminal law—Evidence—Reputation of accused.*

(U. S. C. C. A., 1909.) On the trial of a defendant charged with making a false entry in a report of a national bank of which he was cashier, where witnesses were allowed to testify as to his reputation for truthfulness and honesty, it was not error to exclude testimony as to his reputation for morality and sobriety as irrelevant. (*Harper v. United States*, 170 Fed. Rep., 385.)

*Prosecution of officer for making false report—Instructions.*

(U. S. C. C. A., 1909.) Instructions given on the trial of a defendant charged with having, while cashier of a national bank, made false entries in a report of the bank, with intent to deceive the president thereof, considered, and, taken together, held not erroneous. (*Harper v. United States*, 170 Fed. Rep., 385.)

*"False entry"—Loans and discounts.*

(U. S. C. C. A., 1909.) A national bank of which defendant was cashier, was in straitened circumstances, so that the president, cashier, and assistant cashier had not drawn their salaries for five months. Each of the officers having overdrawn his individual account with the bank to the amount of their unpaid salaries, the bank examiner required the overdraft to be made good, and to accomplish this the officers induced F., who was solvent, to execute his note to the bank for their accommodation, and this was discounted and entered as a loan and discount, the proceeds being credited to the officers' individual accounts to make good the overdrafts. *Held*, that the note, while accommodation paper so far as the officers of the bank were concerned, was enforceable against the maker by the bank, and hence its inclusion in a report made by the cashier to the Comptroller of the Currency as a loan and discount of the bank did not constitute the making of a "false entry," in violation of Revised Statutes, section 5209 (U. S. Comp. St. 1901, p. 3497.) (*Hayes v. United States*, 169 Fed. Rep., 101.)

*Criminal law—Circumstantial evidence—Weight.*

(U. S. C. C. A., 1909.) Circumstantial evidence, to be sufficient to sustain a conviction, must rise to that degree of convincing power which satisfies the mind of guilt beyond a reasonable doubt. (*Ib.*)

*Assets—Increase—False entries.*

(U. S. C. C. A., 1909.) If the officer of a bank procured a note to be given to it by an irresponsible person, with intent of apparently increasing the bank's assets, and should thereafter make an entry in a report required by law to the Comptroller of the Currency, including such note as a bona fide asset of the bank, with either of the intents denounced by Revised Statutes, section 5209 (U. S. Comp. St. 1901, p. 3497), such entry would be a false entry within such section, though the paper was in actual existence. (*Ib.*)

## EMBEZZLEMENT.

*Embezzlement—Money of bank—Collection by agent.*

(U. S. C. C. A., 1909.) Accused's duty was to take drafts or other items received by a national bank by which he was employed from its patrons for collection, present them to the drawees or others liable thereon, receive the money due, and return it to the bank. He, however, reported a less amount collected than he actually received, and converted the difference. *Held*, that in making the collection he acted as the bank's agent, and that the money, while in his possession and before it had been actually deposited in the bank, belonged to it, and that he was therefore properly convicted of embezzling the same. (*Spencer v. United States*, 169 Fed. Rep., 562.)

## SHAREHOLDERS.

## RIGHT TO VOTE AT MEETING OF SHAREHOLDERS.

*Voting trust contrary to public policy.*

(N. C. Sup. Ct., 1909.) An agreement among certain stockholders of a national bank who wished to perpetuate the existing management to deposit their stock with three trustees, constituting the trustees' proxies for the purpose of voting said stock at all meetings of the stockholders of said bank for a period of fifteen years, and providing further that if during the continuance of the agreement any of the subscribing stockholders should desire to sell his stock, then the trustees should have the option to purchase said stock at the then book value thereof. *Held*, that the agreement was invalid as contrary to public policy, and the trustees were restrained from putting said agreement or any part thereof into effect, and perpetually restraining and enjoining them from taking any action under said agreement looking to its execution as therein provided. (Decided by the superior court, Edgecombe County, N. C., but not reported.)

## ASSESSMENT OF SHAREHOLDERS.

*Withdrawal of stockholder.*

(U. S. C. C. A., 1908.) Under act July 12, 1882, chapter 290, section 5, 22 Stat., 163 (U. S. Comp. St., 1901, p. 3458), which provides that when a national bank has amended its charter, for the purpose of renewing the same, as therein provided, and has obtained a certificate of approval from the Comptroller, "any shareholder not assenting to such amendment may give notice in writing to the directors, within thirty days from the date of the certificate of approval, of his desire to withdraw from said association, in which case he shall be entitled to receive from said banking association the value of the shares so held by him, to be ascertained by an appraisal," etc., a shareholder ceases to be such on giving notice of withdrawal within the required time. (*Kimball v. Apsey*, 164 Fed. Rep., 829.)

*Withdrawal of stockholder—Liability for assessment.*

(U. S. C. C. A., 1908.) Where a stockholder in a national bank served notice of withdrawal on a renewal of its charter, as required by act July 12, 1882, chapter 290, section 5, 22 Stat., 163 (U. S. Comp. St., 1901, p. 3458), appointed an appraiser on his behalf and took all reasonable steps to obtain an appraisal of and payment for his shares as therein provided, and thereafter refused to accept dividends on his stock, he can not be held liable for an assessment made on the subsequent insolvency of the bank, on the ground of estoppel, although through a failure of duty on the part of the bank and its officers no appraisal was made, and his name was retained on the stock book, and because of such failure to act his certificate of stock had not been actually surrendered. (*Ib.*)

*Assessment of stockholders—Transfer of stock.*

(U. S. C. C. A., 1908.) An absolute sale and transfer of the stock of a national bank by a holder thereof can not subsequently be avoided and the transferor made liable for an assessment upon the stock, unless it is shown, not only that at the time of the transfer the bank was actually insolvent, but that the transferor knew of such insolvency, or had reason to believe it, and that that transfer was intended to evade liability. (*Vandagriff v. Rich Hill Bank et al.*, 163 Fed. Rep., 823.)

*Liability of stockholders—"Person holding stock as trustee."*

(U. S. C. C. A., 1908.) Revised Statutes, section 5152 (U. S. Comp. St., 1901, p. 3465), providing that persons holding stock in national banks as executors, administrators, guardians, or trustees shall not be personally subject to any liabilities as stockholders, is not confined to express trusts, but applies to every one holding stock as trustee, and a father who invested funds belonging to his children in such stock, taken in his own name simply as "trustee," can not be held personally liable for an assessment thereon, although the fund so invested arose from an investment of his own money previously made by him in their names and behalf. (*Fowler v. Gowing*, 165 Fed. Rep., 891.)

## TAXATION.

*Taxation of national-bank shares—Validity of statute.*

(U. S. C. C., 1909.) Provisions of a state statute for the taxation of national-bank stock, requiring the cashier of the bank to pay the taxes assessed against its stockholders, and making them and the bank liable therefor, and for a penalty in addition in case of default, are not illegal as applied to a bank which has in its possession dividends or other funds belonging to its stockholders sufficient to pay the taxes assessed against them. (*Charleston Natl. Bank v. Melton*, 171 Fed. Rep., 743.)

(U. S. C. C., 1909.) The validity of a state statute providing for the taxation of national-bank stock is not affected by the fact that it does not provide for any deduction from the valuation on account of any United States bonds held by the bank. (*Charleston Natl. Bank v. Melton*, 171 Fed. Rep., 743.)

*Remedy for illegal taxation.*

(U. S. C. C., 1909.) A national bank or stockholder therein has the right to go into a federal court of equity to test the validity, under Revised Statutes, section 5219 (U. S. Comp. St., 1901, p. 3502), of a tax levied by state authority on the stock of the bank, where there is no adequate remedy at law in such court, notwithstanding a remedy provided by the state statute. (*Charleston Natl. Bank v. Melton*, 171 Fed. Rep., 743.)

*Remedy for illegal taxation—Continued.*

(U. S. C. C., 1909.) Where a state statute provides for a tax on the stock of a national bank and requires the bank to pay it, the bank is in effect made a trustee and has the right to resort to a court of equity to determine its duty for its protection against the State, on the one hand, and the stockholders, on the other. (*Charleston Natl. Bank v. Melton*, 171 Fed. Rep., 743.)

*Remedy for wrongful enforcement—Injunction.*

(U. S. C. C., 1909.) The invalidity of a provision of a state statute providing for the taxation of stock of national banks, as applied to a certain class of stockholders, as in violation of Revised Statutes, section 5219 (U. S. Comp. St., 1901, p. 3502), held not to warrant an injunction restraining the collection of the tax imposed thereunder on the stockholders of a bank, where the bill did not show the amount which was invalid or payment or tender of the part lawfully imposed. (*Charleston Natl. Bank v. Melton*, 171 Fed. Rep., 743.)

NOTE 1.—Specie payments were suspended from Jan. 1, 1862, to Jan. 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific coast, where, it is estimated, the specie circulation was generally about \$25,000,000. This estimated amount is the only coin included in the above statement from 1862 to 1875, inclusive.

NOTE 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning with that year.

NOTE 3.—The coinage of standard silver dollars began in 1878, under the act of Feb. 28, 1878.

NOTE 4.—Specie payments were resumed Jan. 1, 1879, and all gold and silver coins, as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.

NOTE 5.—The Director of the Mint recently made a revised estimate of the stock of gold coin and, as a consequence of such revision the estimated stock of gold in the United States and of gold coin in circulation has been reduced \$135,000,000 in the figures for 1907.

<sup>a</sup> It is evident from the returns that the direction as to what constitutes "Savings deposits" appended to the request for reports was not carefully considered by the bank officials in all instances, as certificates of deposit, both time and demand, appear to have been included in savings deposits.

<sup>b</sup> While the number of savings and other depositors in each and all classes of banks is stated and believed to be approximately correct, it should be borne in mind that doubtless in many instances the same individual may have a checking and a savings deposit account in the same or different banks and in the report he may have been treated as two or more depositors. It is probable, however, that such duplications may be offset to a great extent by the number of depositors in banks from which returns were not received.

<sup>c</sup> Interest paid on accounts other than savings appears to be in most instances on time deposit or on certificates of deposit.

<sup>d</sup> Includes certificates of deposit in state banks.

## No. 114.—RESOURCES AND LIABILITIES OF THE SECOND BANK OF THE UNITED STATES.

[Chartered by Congress in 1816, for twenty years; renewal of charter denied; in consequence, reorganization was effected by means of authority of the legislature of the State of Pennsylvania. The bank assigned in 1841, the affairs being finally liquidated in 1856, and resulted in the payment in full, interest and principal, of liabilities to depositors and note holders; the shareholders, however, received nothing on their investment in stock of the bank.]

NOTE.—Gold was first quoted at par on December 19, 1878.

The average rates of gold and currency for each month, as given in the above tables, was obtained as follows:

Four daily quotations of the rates of gold at New York, viz, the Opening, Closing, Highest, and Lowest, were recorded, from which a daily average was made, and the average rate for each month was prepared from these daily averages.
